#### ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OPP-2005-0318; FRL-7748-5]

#### Notice of Filing of a Pesticide Petition Amendment to Regulations for Residues of the Biochemical Pesticide 2,6-diisopropyl-naphthalene (2,6-DIPN) in or on Potatoes

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** This notice announces the initial filing of a pesticide petition proposing the amendment of regulations for residues of the biochemical pesticide

2,6-diisopropyl-naphthalene (2,6-DIPN) in or on the food commodities whole potatoes at 2 parts per million (ppm) and potato peels at 6 ppm.

**DATES:** Comments must be received on or before January 9, 2006.

**ADDRESSES:** Comments, identified by docket identification (ID) number EPA-HQ-OPP-2005-0318 and pesticide petition (PP) number 1F6338, may be submitted electronically, by mail, or through hand delivery or courier. Follow the detailed instructions as provided in Unit I. of the **SUPPLEMENTARY INFORMATION.**

**FOR FURTHER INFORMATION CONTACT:** Denise Greenway, Biopesticides and Pollution Prevention Division, (7511C), Office of Pesticide Programs, U. S. Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001, telephone number: (703) 308-8263, e-mail address: [greenway.denise@epa.gov](mailto:greenway.denise@epa.gov).

#### SUPPLEMENTARY INFORMATION:

##### I. General Information

##### A. Does this Action Apply to Me?

You may be potentially affected by this action if you are an agricultural producer, food manufacturer, or pesticide manufacturer. Potentially affected entities may include, but are not limited to:

- Crop production (NAICS code 111).
- Animal production (NAICS code 112).
- Food manufacturing (NAICS code 311).
- Pesticide manufacturing (NAICS code 32532).

This listing is not intended to be exhaustive, but rather provides a guide for readers regarding entities likely to be affected by this action. Other types of entities not listed in this unit could also be affected. The North American Industrial Classification System (NAICS) codes have been provided to assist you and others in determining whether this action might apply to certain entities. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT.**

##### B. How Can I Get Copies of this Document and Other Related Information?

1. *Docket.* EPA has established an official public docket for this action under docket ID number EPA-HQ-OPP-2005-0318. The official public docket consists of the documents specifically referenced in this action, any public comments received, and

other information related to this action. Although a part of the official docket, the public docket does not include Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. The official public docket is the collection of materials that is available for public viewing at the Public Information and Records Integrity Branch (PIRIB), Rm. 119, Crystal Mall #2, 1801 S. Bell St., Arlington, VA. This docket facility is open from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The docket telephone number is (703) 305-5805.

2. *Electronic access.* You may access this document electronically through the EPA Internet under the “**Federal Register**” listings at <http://www.epa.gov/fedrgstr/>.

*Agency Website:* EDOCKET, EPA’s electronic public docket and comment system was replaced on November 25, 2005, by an enhanced federal-wide electronic docket management and comment system located at <http://www.regulations.gov/>. Follow the on-line instructions.

An electronic version of the public docket is available through EPA’s electronic public docket and comment system, EPA Dockets. You may use EPA Dockets at <http://www.epa.gov/edocket/> to submit or view public comments, to access the index listing of the contents of the official public docket, and to access those documents in the public docket that are available electronically. Although not all docket materials may be available electronically, you may still access any of the publicly available docket materials through the docket facility identified in Unit I.B.1. Once in the system, select “search,” then key in the appropriate docket ID number.

Certain types of information will not be placed in the EPA Dockets. Information claimed as CBI and other information whose disclosure is restricted by statute, which is not included in the official public docket, will not be available for public viewing in EPA’s electronic public docket. EPA’s policy is that copyrighted material will not be placed in EPA’s electronic public docket but will be available only in printed, paper form in the official public docket. To the extent feasible, publicly available docket materials will be made available in EPA’s electronic public docket. When a document is selected from the index list in EPA Dockets, the system will identify whether the document is available for viewing in EPA’s electronic public docket. Although not all docket materials may be available electronically, you may still access any of the publicly available

docket materials through the docket facility identified in Unit I.B.1. EPA intends to work towards providing electronic access to all of the publicly available docket materials through EPA's electronic public docket.

For public commenters, it is important to note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing in EPA's electronic public docket as EPA receives them and without change, unless the comment contains copyrighted material, CBI, or other information whose disclosure is restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in EPA's electronic public docket. The entire printed comment, including the copyrighted material, will be available in the public docket.

Public comments submitted on computer disks that are mailed or delivered to the docket will be transferred to EPA's electronic public docket. Public comments that are mailed or delivered to the docket will be scanned and placed in EPA's electronic public docket. Where practical, physical objects will be photographed, and the photograph will be placed in EPA's electronic public docket along with a brief description written by the docket staff.

#### *C. How and to Whom Do I Submit Comments?*

You may submit comments electronically, by mail, or through hand delivery/courier. To ensure proper receipt by EPA, identify the appropriate docket ID number in the subject line on the first page of your comment. Please ensure that your comments are submitted within the specified comment period. Comments received after the close of the comment period will be marked "late." EPA is not required to consider these late comments. If you wish to submit CBI or information that is otherwise protected by statute, please follow the instructions in Unit I.D. Do not use EPA Dockets or e-mail to submit CBI or information protected by statute.

1. *Electronically.* If you submit an electronic comment as prescribed in this unit, EPA recommends that you include your name, mailing address, and an e-mail address or other contact information in the body of your comment. Also include this contact information on the outside of any disk or CD ROM you submit, and in any cover letter accompanying the disk or CD ROM. This ensures that you can be

identified as the submitter of the comment and allows EPA to contact you in case EPA cannot read your comment due to technical difficulties or needs further information on the substance of your comment. EPA's policy is that EPA will not edit your comment, and any identifying or contact information provided in the body of a comment will be included as part of the comment that is placed in the official public docket, and made available in EPA's electronic public docket. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment.

i. *EPA Dockets.* Your use of EPA's electronic public docket to submit comments to EPA electronically is EPA's preferred method for receiving comments. Go directly to EPA Dockets at <http://www.epa.gov/edocket/>, and follow the online instructions for submitting comments. Once in the system, select "search," and then key in docket ID number EPA-HQ-OPP-2005-0318. The system is an "anonymous access" system, which means EPA will not know your identity, e-mail address, or other contact information unless you provide it in the body of your comment.

ii. *E-mail.* Comments may be sent by e-mail to [opp-docket@epa.gov](mailto:opp-docket@epa.gov), Attention: Docket ID Number EPA-HQ-OPP-2005-0318. In contrast to EPA's electronic public docket, EPA's e-mail system is not an "anonymous access" system. If you send an e-mail comment directly to the docket without going through EPA's electronic public docket, EPA's e-mail system automatically captures your e-mail address. E-mail addresses that are automatically captured by EPA's e-mail system are included as part of the comment that is placed in the official public docket, and made available in EPA's electronic public docket.

iii. *Disk or CD ROM.* You may submit comments on a disk or CD ROM that you mail to the mailing address identified in Unit I.C.2. These electronic submissions will be accepted in WordPerfect or ASCII file format. Avoid the use of special characters and any form of encryption.

2. *By mail.* Send your comments to: Public Information and Records Integrity Branch (PIRIB) (7502C), Office of Pesticide Programs (OPP), Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001, Attention: Docket ID Number EPA-HQ-OPP-2005-0318.

3. *By hand delivery or courier.* Deliver your comments to: Public Information and Records Integrity Branch (PIRIB), Office of Pesticide Programs (OPP),

Environmental Protection Agency, Rm. 119, Crystal Mall #2, 1801 S. Bell St., Arlington, VA, Attention: Docket ID Number EPA-HQ-OPP-2005-0318. Such deliveries are only accepted during the docket's normal hours of operation as identified in Unit I.B.1.

#### *D. How Should I Submit CBI to the Agency?*

Do not submit information that you consider to be CBI electronically through EPA's electronic public docket or by e-mail. You may claim information that you submit to EPA as CBI by marking any part or all of that information as CBI (if you submit CBI on disk or CD ROM, mark the outside of the disk or CD ROM as CBI and then identify electronically within the disk or CD ROM the specific information that is CBI). Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

In addition to one complete version of the comment that includes any information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket and EPA's electronic public docket. If you submit the copy that does not contain CBI on disk or CD ROM, mark the outside of the disk or CD ROM clearly that it does not contain CBI. Information not marked as CBI will be included in the public docket and EPA's electronic public docket without prior notice. If you have any questions about CBI or the procedures for claiming CBI, please consult the person listed under **FOR FURTHER INFORMATION CONTACT.**

#### *E. What Should I Consider as I Prepare My Comments for EPA?*

You may find the following suggestions helpful for preparing your comments:

1. Explain your views as clearly as possible.
2. Describe any assumptions that you used.
3. Provide copies of any technical information and/or data you used that support your views.
4. If you estimate potential burden or costs, explain how you arrived at the estimate that you provide.
5. Provide specific examples to illustrate your concerns.
6. Make sure to submit your comments by the deadline in this notice.
7. To ensure proper receipt by EPA, be sure to identify the docket ID number assigned to this action and the pesticide petition number of the summary of interest in the subject line on the first page of your response. It would also be

helpful if you would provide the name, date, and **Federal Register** citation.

## II. What Action is the Agency Taking?

EPA is printing a summary of the pesticide petition received under section 408 of the Federal Food, Drug, and Cosmetic Act (FFDCA), 21 U.S.C. 346a, proposing the amendment of regulations in 40 CFR 180.590 for residues of the biochemical pesticide 2,6-diisopropyl-naphthalene (2,6-DIPN) in or on the food commodities whole potatoes at 2 parts per million (ppm) and potato peels at 6 ppm. EPA has determined that this pesticide petition contains data or information regarding the elements set forth in FFDCA section 408(d)(2); however, EPA has not fully evaluated the sufficiency of the submitted data at this time or whether the data support granting of the pesticide petition. Additional data may be needed before EPA rules on this pesticide petition.

Pursuant to 40 CFR 180.7(f), a summary of the petition, prepared by the petitioner along with a description of the analytical methods available for the detection and measurement of the pesticide chemical residues is available on EPA's Electronic Docket at <http://www.epa.gov/edocket>. To locate this information, on the home page of the EPA's Electronic Docket select "Quick Search" and type the OPP docket number for the pesticide petition (as specified in Unit I.B.1.) in the search field. Once the search has located the docket, clicking on the "Docket ID" will bring up a list of all documents in the docket for the pesticide including the petition summary.

### Amendment to Existing Tolerance

*PP 1F6338.* Loveland Products, Inc. 7251 W. 4<sup>th</sup> Street, Greeley, CO 80634, proposes to amend the tolerances in 40 CFR 180.590 for residues of the biochemical pesticide 2,6-diisopropyl-naphthalene (2,6-DIPN) in or on the food commodities whole potatoes at 2 parts per million (ppm) and potato peels at 6 ppm. The analytical method for determining residues is by high-performance liquid chromatography (HPLC) and is used to measure and evaluate the chemical residues.

### List of Subjects

Environmental protection, Agricultural commodities, Feed additives, Food additives, Pesticides and pests, Reporting and recordkeeping requirements.

Dated: November 18, 2005.

**Janet L. Andersen,**

*Director, Biopesticides and Pollution Prevention Division, Office of Pesticide Programs.*

## ENVIRONMENTAL PROTECTION AGENCY

**[Docket No. EPA-HQ-ORD-2005-0029; FRL-8006-6]**

### Air Quality Criteria for Oxides of Nitrogen

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice; call for information.

**SUMMARY:** The U.S. Environmental Protection Agency (EPA) is undertaking to update and revise, where appropriate, the *Air Quality Criteria for Oxides of Nitrogen*, EPA/600/8-91/049aF-cF, published in August 1993 by the Office of Research and Development, National Center for Environmental Assessment. Interested parties are invited to assist the EPA in developing and refining the scientific information base for updating the *Air Quality Criteria for Oxides of Nitrogen* by submitting research studies that have been published, accepted for publication, or presented at a public scientific meeting. Areas where additional new information will be particularly useful to EPA for this project are described in the **SUPPLEMENTARY INFORMATION** section of this notice.

**DATES:** All communications and information should be submitted by January 31, 2006.

**ADDRESSES:** Information may be submitted electronically, by mail, by facsimile, or by hand delivery/courier. Please follow the detailed instructions provided in the section of this notice entitled **SUPPLEMENTARY INFORMATION**.

**FOR FURTHER INFORMATION CONTACT:** For details on the period for submission of research information from the public, contact the Office of Environmental Information Docket; telephone: 202-566-1752; facsimile: 202-566-1753; or e-mail: [ORD.Docket@epa.gov](mailto:ORD.Docket@epa.gov).

For technical information, contact Dennis Kotchmar, MD, facsimile: 919-541-1818 or e-mail: [kotchmar.dennis@epa.gov](mailto:kotchmar.dennis@epa.gov).

### SUPPLEMENTARY INFORMATION:

#### I. Information About the Project

Section 108(a) of the Clean Air Act directs the Administrator to identify certain pollutants which "may

reasonably be anticipated to endanger public health and welfare" and to issue air quality criteria for them. These air quality criteria are to "accurately reflect the latest scientific knowledge useful in indicating the kind and extent of all identifiable effects on public health or welfare which may be expected from the presence of [a] pollutant in the ambient air \* \* \*." Under section 109 of the Act, EPA is then to establish National Ambient Air Quality Standards (NAAQS) for each pollutant for which EPA has issued criteria. Section 109(d) of the Act subsequently requires periodic review and, if appropriate, revision of existing air quality criteria to reflect advances in scientific knowledge on the effects of the pollutant on public health and welfare. EPA is also to revise the NAAQS, if appropriate, based on the revised criteria.

Oxides of nitrogen (NO<sub>x</sub>) are one of six principal (or "criteria") pollutants for which EPA has established National Ambient Air Quality Standards (NAAQS). Periodically, EPA reviews the scientific basis for these standards by preparing an Air Quality Criteria Document (AQCD). The AQCD provides scientific bases for additional technical and policy assessments that form the basis for EPA decisions on the adequacy of a current NAAQS and the appropriateness of new or revised standards. One of the first steps in this process is to announce the beginning of this periodic NAAQS review and the start of the development of the AQCD, by requesting the public to submit scientific literature that they want to bring to the attention of the Agency. The Clean Air Scientific Advisory Committee (CASAC), a review committee of the EPA's Science Advisory Board (SAB), is mandated by the Clean Air Act with performing an independent expert scientific review of EPA's draft AQCDs. As the process proceeds, the public will have opportunities to review and comment on the draft oxides of nitrogen AQCD. These opportunities will also be announced in the **Federal Register**.

Since completion of the 1993 *Air Quality Criteria for Oxides of Nitrogen*, EPA has continued to follow the scientific research on oxides of nitrogen exposure and its effects on health and the environment and has gathered appropriate studies. The Agency is particularly interested in additional new information concerning: (a) Toxicological studies of effects of controlled exposure to nitrogen dioxide or other oxides of nitrogen on laboratory animals and humans; (b) epidemiologic (observational) studies of health effects associated with ambient exposures of
