BILLING CODE 4710-07-P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[Docket No. FAA-2020-0124]

Agency Information Collection Activities: Requests for Comments; Clearance of a New Approval of Information Collection: FAA Organization Designation Authorization (ODA) Survey

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, FAA invites public comments about our intention to request the Office of Management and Budget (OMB) approval for a new information collection. The collection involves a survey of Organization Designation Authorization (ODA) holders and ODA program applicants to document and assess FAA certification and oversight activities. The information to be collected is necessary because it is required of the FAA per Section 213 of the FAA Reauthorization Act of 2018.

DATES: Written comments should be submitted by April 6, 2020.

ADDRESSES: Please send written comments:

By Electronic Docket:
www.regulations.gov (Enter docket number into search field).

By mail: Andrew Jeffrey; 1200 District Ave., 4th Floor; Burlington, MA 01803.

By fax: 781-238-7171.

FOR FURTHER INFORMATION CONTACT:

Robert Busto by email at: robert.busto@faa.gov; phone: 816-329-4143.

SUPPLEMENTARY INFORMATION:

Public Comments Invited: You are asked to comment on any aspect of this information collection, including (a) Whether the proposed collection of information is necessary for FAA's performance; (b) the accuracy of the estimated burden; (c) ways for FAA to enhance the quality, utility and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information. The agency will summarize and/or include your

comments in the request for OMB's clearance of this information collection.

OMB Control Number: 2120-XXXX.

Title: FAA Organization Designation Authorization (ODA) Survey.

Form Numbers: None.

Type of Review: New information collection.

Background: Section 213 of the FAA Reauthorization Act of 2018 requires FAA to establish an Expert Panel comprised of ODA holders, aviation manufacturers, safety experts, and FAA labor organizations. The Panel is instructed in the Act to conduct a survey, "of ODA holders and ODA program applicants to document and assess FAA certification and oversight activities, including the use of the ODA program and the timeliness and efficiency of the certification process." The survey's purpose will be to provide information of whether ODA processes and procedures function as intended, and such information will be incorporated into the Expert Panel's report of assessment and recommendations.

Respondents: Respondents may include ODA holders, ODA applicants, ODA unit members, and FAA Organizational Management Team (OMT) leads/members.

Frequency: The survey will be distributed at least once to support the work of the Expert Panel, and may be re-administered to conduct a longitudinal study; or to support future efforts of the Panel as directed by Congress.

Estimated Average Burden per Response: 1 Hour.

Estimated Total Annual Burden:
Total: approximately 2,150 hours.

Issued in Washington, DC.

Joy Wolf,

*Directives & Forms Management Officer
(DMO/FMO), Aircraft Certification Service.*

SUPPLEMENTARY INFORMATION:

Title: Certification of Enforcement of Vehicle Size and Weight Laws.

OMB Control Number: 2125-00034

Background: Title 23, U.S.C., section 141, requires each State, the District of Columbia and Puerto Rico to file an annual certification that they are enforcing their size and weight laws on Federal-aid highways and that their Interstate System weight limits are consistent with Federal requirements to be eligible to receive an apportionment of Federal highway trust funds. Failure of a State to file a certification, adequately enforce its size and weight laws, and enforce weight laws on the Interstate System that are consistent with Federal requirements, could result in a specified reduction of its Federal highway fund apportionment for the next fiscal year. In addition, section 123 of the Surface Transportation Assistance Act of 1978 (Pub. L. 95-599, 92 Stat. 2689, 2701) requires each jurisdiction to

inventory annually (1) its penalties for violation of its size and weight laws, and (2) the term and cost of its oversize and overweight permits.

Section 141 also authorizes the Secretary to require States to file such information as is necessary to verify that their certifications are accurate. To determine whether States are adequately enforcing their size and weight limits, FHWA requires that each State submit to the FHWA an updated plan for enforcing their size and weight limits. The plan goes into effect at the beginning of each Federal fiscal year. At the end of the fiscal year, States must submit their certifications and sufficient information to verify that their enforcement goals established in the plan have been met.

Respondents: The State Departments of Transportation (or equivalent) in the 50 states, the District of Columbia, and the Commonwealth of Puerto Rico.

Frequency: Annually in separate collections: One certification and one plan (2 collections).

Estimated Average Burden per Response: Each response will take approximately 40 hours.

Estimated Total Annual Burden Hours: 4,160 hours.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection of information in the plan and in the certification is necessary for the U.S. DOT's performance, including whether the information will have practical utility; (2) the accuracy of the U.S. DOT's estimate of the burden of the proposed information collection; (3) ways to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized, including the use of electronic technology or reduced frequency of collection of the plan, without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended; and 49 CFR 1.48.

Issued on: January 30, 2020.

Michael Howell,

FHWA Information Collection Officer.

FOR FURTHER INFORMATION CONTACT: For questions concerning the Next Generation National Household Travel Survey (Next Gen NHTS), please contact Daniel Jenkins, 202-366-1067, daniel.jenkins@dot.gov, National Travel Behavior Data Program Manager, Federal Highway Administration, Office of Policy, 1200 New Jersey Avenue SE, Room E83-414, Washington, DC 20590, Monday through Friday, except Federal holidays.

SUPPLEMENTARY INFORMATION:

Title: Next Generation National Household Travel Survey (Next Gen NHTS).

Type of Request: New request for periodic information collection requirement.

Background: Title 23, United States Code, Section 502 authorizes the USDOT to carry out advanced research and transportation research to measure the performance of the surface transportation systems in the U.S., including the efficiency, energy use, air quality, congestion, and safety of the highway and intermodal transportation systems. The USDOT is charged with the overall responsibility to obtain current information on national patterns of travel, which establishes a data base to better understand travel behavior, evaluate the use of transportation facilities, and gauge the impact of the USDOT's policies and programs.

The NHTS is the USDOT's authoritative nationally representative data source for daily passenger travel. This inventory of travel behavior reflects travel mode (e.g., private vehicles, public transportation, walk and bike) and trip purpose (e.g., travel to work, school, recreation, personal/family trips) by U.S. household residents. Survey results are used by federal and state agencies to monitor the performance and adequacy of current facilities and infrastructure, and to plan for future needs.

The collection and analysis of national transportation data has been of critical importance for half a century. Previous surveys were conducted in 1969, 1977, 1983, 1990, 1995, 2001, 2009, and 2017. The current survey will be the ninth in this series, and allow researchers, planners, and officials at the state and federal levels to monitor travel trends.

Data from the NHTS are widely used to support research needs within the USDOT, and State and local agencies, in addition to responding to queries from Congress, the research community and the media on important issues. Current and recent topics of interest include:

- Travel to work patterns by transportation mode for infrastructure improvements and congestion reduction,
- Access to public transit, paratransit, and rail services by various demographic groups,
- Measures of travel by mode to establish exposure rates for risk analyses,
- Support for Federal, State, and local planning activities and policy evaluation,
- Active transportation by walk and bike to establish the relationship to public health issues,
- Vehicle usage for energy consumption analysis,
