

statutory references of the MIRS include the following:

- In 1989, Congress required the Chairperson of the Finance Board to take necessary actions to ensure that indices used to calculate the interest rate on adjustable-rate mortgages (ARMs) remain available. *See* FIRREA, tit. IV, section 402, paragraphs (e)(3)–(4), 103 Stat. 183, codified at 12 U.S.C. 1437 *note*. At least one ARM index, known as the National Average Contract Mortgage Rate for the Purchase of Previously Occupied Homes by Combined Lenders, is derived from the MIRS data. The statute permits FHFA to substitute a different ARM index after notice and comment only if the new ARM index is based upon data substantially similar to that of the original ARM index and substitution of the new ARM index will result in an interest rate substantially similar to the rate in effect at the time the new ARM index replaces the existing ARM index. *See* 12 U.S.C. 1437 *note*.

- Congress indirectly connected the high cost area limits for mortgages insured by the Federal Housing Administration (FHA) of the Department of Housing and Urban Development to the MIRS in 1994 when it statutorily linked these FHA insurance limits to the purchase price limitations for Fannie Mae. *See* Public Law No. 103–327, 108 Stat. 2314 (Sept. 28, 1994), codified at 12 U.S.C. 1709(b)(2)(A)(ii).

- Statutes in several states and U.S. territories, including California, Michigan, Minnesota, New Jersey, Wisconsin, and the Virgin Islands, refer to, or rely upon, the MIRS. *See, e.g.,* Cal. Civ. Code §§ 1916.7 and 1916.8 (mortgage rates); Mich. Comp. Laws § 445.1621(d) (mortgage index rates); Minn. Stat. § 92.06 (payments for state land sales); N.J. Rev. Stat. 31:1–1 (interest rates); Wis. Stat. § 138.056 (variable loan rates); V.I. Code Ann. tit. 11, § 951 (legal rate of interest).

The respondents include a sample of major mortgage lenders, such as savings institutions, commercial banks, and mortgage loan companies. Most of the respondents submit the requested information electronically using the MIRS software in a format similar to FHFB Form FHFB 10–91. Some respondents elect to complete FHFB Form 10–91 and submit it by facsimile. Respondents are requested to submit the information on a monthly basis.

The OMB number for the information collection is 2590–0004. The OMB clearance for the information collection expires on September 30, 2010.

B. Burden Estimate

FHFA estimates the total annual number of respondents at 76 with 8 responses per respondent. The estimate for the average hours per response is 20 minutes. The estimate for the total annual hour burden is 200 hours (76 respondents × 8 responses × 0.33 hours).

C. Comment Request

FHFA requests written comments on the following: (1) Whether the collection of information is necessary for the proper performance of FHFA functions, including whether the information has practical utility; (2) the accuracy of FHFA estimates of the burdens of the collection of information; (3) ways to enhance the quality, utility, and clarity of the information collected; and (4) ways to minimize the burden of the collection of information, including through the use of automated collection techniques or other forms of information technology.
