

VI. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products which are currently in the United States and which were packaged, labeled, and released for shipment prior to the effective date of the cancellation action. The cancellation order issued in this notice includes the following existing stocks provisions.

Registrants may sell or distribute existing stocks for 1 year from the effective date of cancellation. This policy is in accordance with the Agency's statement of policy as prescribed by the **Federal Register** of June 26, 1991 (56 FR 29362) (FRL-3846-4). Existing stocks already in the hands of dealers or users can be distributed, sold, or used legally until they are exhausted, provided that such further sale and use comply with the EPA-approved label and labeling of the affected product. Exception to these general rules will be made in specific cases when more stringent restrictions on sale, distribution, or use of the products or their ingredients have already been imposed, as in a special review action, or where the Agency has identified significant potential risk concerns associated with a particular chemical.

SUPPLEMENTARY INFORMATION: Pursuant to the Federal Advisory Committee Act, 5 U.S.C., App. 2 (FACA), notice is hereby given that the EPA Science Advisory Board (SAB) will hold public teleconferences to conduct two quality reviews of draft SAB committee reports. The SAB was established pursuant to 42 U.S.C. 4365 to provide independent scientific and technical advice to the Administrator on the technical basis for Agency positions and regulations. The SAB is a Federal Advisory Committee under FACA. The SAB will comply with the provisions of FACA and all appropriate SAB Staff Office procedural policies.

Background

(a) *SAB Quality Review of the Draft SAB Report on EPA's Economic Analysis Guidelines Update.* The Chartered SAB will conduct a quality review of the SAB Environmental Economics Advisory Committee (EEAC) draft report on EPA's Economic Analysis Guidelines Update from 2 p.m. to 3:30 p.m. on Thursday, August 6, 2009. EPA's National Center for Environmental Economics (NCEE) has requested SAB review of EPA's revised Guidelines for Preparing Economic Analyses. EPA last issued Guidelines for Preparing Economic Analyses in September 2000 to represent Agency policy on the preparation of economic analysis required by legislation and administrative orders. EPA received advice from the SAB in developing those Guidelines. Since 2000, there has been considerable new economic research and EPA has received new guidance from the Office of Management and Budget pertaining to the Agency's conduct of regulatory analysis. In response, NCEE has revised and updated the Guidelines and has requested SAB review. More information on this topic can be found

on the SAB Web site at http://yosemite.epa.gov/sab/sabproduct.nsf/fedrgstr_activites/Guidelines%20Review?OpenDocument.

(b) *SAB Quality Review of the Draft SAB Panel Report on the EPA Expert Elicitation White Paper.* The Chartered SAB will conduct a quality review of the draft report from its Expert Elicitation Advisory Panel from 2 p.m. to 3:30 p.m. on Friday, August 28, 2009. EPA's Office of the Science Advisor (OSA) has requested SAB review of an "Expert Elicitation (EE) Task Force White Paper." The White Paper discusses the potential utility of using expert elicitation to support EPA regulatory and non-regulatory analyses and decision-making, provides recommendations for expert elicitation "good practices," and describes steps for a broader application across EPA. OSA has asked the SAB to provide advice regarding the potential usefulness of expert elicitation, how to strengthen the scientific basis for its use, and the implications for possible implementation at EPA. More information on this topic can be found on the SAB Web site at http://yosemite.epa.gov/sab/sabproduct.nsf/fedrgstr_activites/Expert%20Elicitation%20White%20Paper?OpenDocument.

Availability of Meeting Materials: The agenda and other materials in support of these teleconferences will be placed on the SAB Web site at <http://www.epa.gov/sab> in advance of each meeting.

Procedures for Providing Public Input: Interested members of the public may submit relevant written or oral information for the SAB to consider during these teleconferences. *Oral Statements:* In general, individuals or groups requesting time to make an oral presentation at a public SAB teleconference will be limited to three minutes, with no more than one-half hour for all speakers. To be placed on the public speakers list for the August 6, 2009 teleconference interested individuals should contact Mr. Thomas Miller, DFO, in writing (preferably by e-mail), by July 31 at the contact information provided above. Those interested in being placed on the public speakers list for the August 28, 2009 teleconference should contact Mr. Miller in the manner noted above by August 22, 2009. *Written Statements:* Written statements relevant to the August 6, 2009 teleconference should be received in the SAB Staff Office by July 31, 2009 so that the information may be made available to the SAB for their consideration prior to the teleconferences. AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice; request for public comment.

SUMMARY: In accordance with section 122(i) of the Comprehensive

Environmental Response, Compensation, and Liability Act, as amended (CERCLA) and section 7003 of the Resource Conservation and Recovery Act (RCRA), the EPA and the State of California's Department of Toxic Substances Control (DTSC), Regional Water Quality Control Board, Central Coast Region (Regional Board) and Department of Fish and Game (DFG) (jointly referred to as the State Regulatory Entities), are hereby providing notice of a proposed administrative *de minimis* settlement concerning the Casmalia Disposal Site in Santa Barbara County, California (the Casmalia Disposal Site). Section 122(g) of CERCLA provides EPA with the authority to enter into administrative *de minimis* settlements. This settlement is intended to resolve the liabilities of 142 settling parties for the Casmalia Disposal Site under sections 106 and 107 of CERCLA and section 7003 of RCRA. These parties are identified below. Of these 142 parties, 100 have elected to resolve their liability with EPA and the State Regulatory Entities. An additional 42 parties have elected to resolve their liability only with the State Regulatory Entities at this time; 23 of these have previously settled with EPA. The parties that have settled with the State Regulatory Entities have also settled potential natural resource damage claims by the California Department of Fish and Game as the State Natural Resource Trustee ("State Trustee"). Most of those resolving their liability to the EPA have also elected to resolve their liability for response costs and potential natural resource damage claims by the United States Fish and Wildlife Service (USFWS) and the National Oceanic and Atmospheric Administration (NOAA). The 100 parties settling with EPA and the State Regulatory Entities and State Trustee sent 19,762,737 lbs. of waste to the Casmalia Disposal Site, which represents 0.35% of total Site waste. This settlement requires these parties to pay over \$1.7 million to EPA. These parties and the additional 42 parties settling with only the State Regulatory Entities and State Trustee will pay a total of \$675,000 to the State Regulatory Entities and State Trustee. EPA is simultaneously publishing another **Federal Register** Notice relating to another settlement with *de minimis* parties that had received offers prior to the group of parties listed in this Notice.
