Commission records reflect that Station WQEN filed a one-step application for a construction permit (File No. BPH-19971114IH) to change its channel of operation to Channel 279C1. A license to cover the construction permit (File No. BLH-19980710KE) was granted December 6, 1999.

Provisions of the Regulatory Flexibility Act of 1980 do not apply to this proceeding.

Members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel allotments. See 47 CFR 1.1204(b) for rules governing permissible *ex parte* contacts.

## NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

### 48 CFR Parts 1827, 1835 and 1852

### Submission of Final Reports Under NASA Research and Development Contracts

**AGENCY:** National Aeronautics and Space Administration (NASA).

**ACTION:** Proposed rule.

**SUMMARY:** This is a proposed rule to revise report submission requirements under NASA research and development (R&D) contracts and clarify that contractors cannot release these final reports until NASA has completed its Document Availability Authorization (DAA) review and the availability of the report has been determined.

**DATES:** Comments should be submitted on or before June 19, 2000.

**ADDRESSES:** Interested parties should submit written comments to Celeste Dalton, NASA Headquarters Office of

Procurement, Contract Management Division (Code HK), Washington, DC, 20546. Comments may also be submitted by email to [cdalton@hq.nasa.gov](mailto:cdalton@hq.nasa.gov).

**FOR FURTHER INFORMATION CONTACT:** Celeste Dalton (202) 358-1645.

### SUPPLEMENTARY INFORMATION:

#### A. Background

NASA's Center for AeroSpace Information (CASI) serves as a repository of NASA scientific and technical information (STI). This includes information developed under NASA-sponsored research and development efforts. The NFS currently requires that copies of the final report and other progress reports under R&D contracts be submitted to CASI. The need for other progress reports no longer exists. Copies of only the final report required under an R&D contract must be submitted to CASI. Before NASA STI is made available, it is subject to a NASA Document Availability Authorization (DAA) review and release determination. Contractors cannot release final reports resulting from NASA R&D contracts until NASA has completed its Document Availability Authorization (DAA) review (NASA Form 1676).

#### B. Regulatory Flexibility Act

This proposed rule is not expected to have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act (5 U.S.C.601 *et seq.*) because it only affects small business entities whose R&D contracts required progress reporting.

#### C. Paperwork Reduction Act

The Paperwork Reduction Act does not apply because the changes to the NFS do not impose any new record keeping or information collection requirements which require the approval of the Office of Management and Budget under 44 U.S.C 3501, *et seq.*
