**SUPPLEMENTARY INFORMATION:** The Commission's regulation at 16 CFR part 1241, titled "Safety Standard for Crib Mattresses," provides a URL to access the voluntary standard incorporated by reference into CPSC's mandatory standard. That voluntary standard, ASTM F2933-21, Standard Consumer Safety Specification for Crib Mattresses (approved on June 15, 2021) (ASTM F2933-21), will be available for viewing free of charge on the ASTM website once the rule becomes effective on August 15, 2022. 87 FR 8640 (Feb. 15, 2022). Section 1241.2(a) of the Safety Standard for Crib Mattresses states: "Once incorporated by reference, you may review a read-only copy of ASTM F2933-21 at <http://www.astm.org/READINGROOM/>." 87 FR 8674. This URL is incorrect, and the public should be directed instead to: <https://www.astm.org/READINGLIBRARY/>. Accordingly, the Commission issues this final rule to update 16 CFR 1241.2(a) with the correct URL citation for the ASTM reading library containing voluntary standards incorporated by reference into regulations. This document does not make any substantive changes to the final rule.

### 40 CFR Part 52

[EPA-R04-OAR-2022-0145; FRL-9844-02-R4]

### Air Plan Approval; Alabama; NO<sub>x</sub> SIP Call

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Final rule.

**SUMMARY:** The Environmental Protection Agency (EPA) is taking final action to approve a State Implementation Plan (SIP) revision submitted by the State of Alabama, through the Alabama Department of Environmental Management (ADEM), in a letter dated October 18, 2021. The revision includes corrections to deficiencies to Alabama's regulation titled "NO<sub>x</sub> Budget Program Monitoring and Reporting" (AL NO<sub>x</sub> SIP Call Monitoring Rule), which EPA previously conditionally approved into the SIP. Specifically, the AL NO<sub>x</sub> SIP Call Monitoring Rule establishes monitoring and reporting requirements for units subject to the nitrogen oxides (NO<sub>x</sub>) SIP Call, including alternative monitoring options for certain sources of NO<sub>x</sub>. EPA is also taking final action to convert the conditional approval to a full approval. In addition, EPA is approving other minor changes into the SIP.

**DATES:** This rule is effective August 10, 2022.

#### SUPPLEMENTARY INFORMATION:

##### I. Background

Under Clean Air Act (CAA or Act) section 110(a)(2)(D)(i)(I), also called the good neighbor provision, states are required to address the interstate transport of air pollution. Specifically, the good neighbor provision requires that each state's implementation plan contain adequate provisions to prohibit air pollutant emissions from within the state that will significantly contribute to nonattainment of the national ambient air quality standards (NAAQS), or that will interfere with maintenance of the NAAQS, in any other state.

On October 27, 1998 (63 FR 57356), EPA finalized the "Finding of Significant Contribution and Rulemaking for Certain States in the Ozone Transport Assessment Group Region for Purposes of Reducing Regional Transport of Ozone" (NO<sub>x</sub> SIP Call). The NO<sub>x</sub> SIP Call required eastern states, including Alabama, to submit SIPs that prohibit excessive emissions of ozone season NO<sub>x</sub> by implementing statewide emissions budgets.<sup>1</sup> The NO<sub>x</sub> SIP Call addressed the good neighbor provision for the 1979 ozone NAAQS and was designed to mitigate the impact of transported NO<sub>x</sub> emissions, one of the precursors of ozone.<sup>2</sup> EPA developed the NO<sub>x</sub> Budget Trading Program, an allowance trading program that states could adopt to meet their obligations under the NO<sub>x</sub> SIP Call. This trading program allowed the following sources to participate in a regional cap and trade program: generally, electricity generating units (EGUs) with capacity greater than 25

megawatts (MW); and large industrial non-EGUs, such as boilers and combustion turbines, with a rated heat input greater than 250 million British thermal units per hour (MMBtu/hr). The NO<sub>x</sub> SIP Call also identified potential reductions from cement kilns and stationary internal combustion engines.

To comply with the NO<sub>x</sub> SIP Call requirements, in 2001, ADEM submitted a revision to add new rule sections to the SIP-approved version of Alabama Administrative Code Chapter 335-3-1, General Provisions, and Chapter 335-3-8, Control of Nitrogen Oxides Emissions. EPA approved the revision as compliant with Phase I of the NO<sub>x</sub> SIP Call in 2001. *See* 66 FR 36919 (July 16, 2001). The approved revision required EGUs and large non-EGUs in the State to participate in the NO<sub>x</sub> Budget Trading Program beginning in 2004. In 2005, Alabama submitted, and EPA approved, a SIP revision to address additional emissions reductions required for the NO<sub>x</sub> SIP Call under Phase II. *See* 70 FR 76694 (December 28, 2005).

In 2005, EPA published the Clean Air Interstate Rule (CAIR), which required several eastern states, including Alabama, to submit SIPs that prohibited emissions consistent with revised ozone season NO<sub>x</sub> budgets (as well as annual budgets for NO<sub>x</sub> and sulfur dioxide). *See* 70 FR 25162 (May 12, 2005); *see also* 71 FR 25328 (April 28, 2006). CAIR addressed the good neighbor provision for the 1997 ozone NAAQS and 1997 fine particulate matter (PM<sub>2.5</sub>) NAAQS and was designed to mitigate the impact of transported NO<sub>x</sub> emissions with respect to ozone and PM<sub>2.5</sub>. CAIR established several trading programs that EPA implemented through Federal implementation plans (FIPs) for EGUs greater than 25 MW in each affected state, but not large non-EGUs; states could submit SIPs to replace the FIPs that achieved the required emission reductions from EGUs and/or other types of sources.<sup>3</sup> When the CAIR trading program for ozone season NO<sub>x</sub> was implemented beginning in 2009, EPA discontinued administration of the NO<sub>x</sub> Budget Trading Program; however, the requirements of the NO<sub>x</sub> SIP Call continued to apply.

On October 1, 2007 (72 FR 55659), EPA approved revisions to Alabama's SIP that incorporated requirements for CAIR. Consistent with CAIR's requirements, EPA approved a SIP revision in which Alabama regulations: (1) sunset its NO<sub>x</sub> Budget Trading

<sup>1</sup> *See* 63 FR 57356 (October 27, 1998).

<sup>2</sup> As originally promulgated, the NO<sub>x</sub> SIP Call also addressed good neighbor obligations under the 1997 8-hour ozone NAAQS, but EPA subsequently stayed and later rescinded the rule's provisions with respect to that standard. *See* 65 FR 56245 (September 18, 2000); 84 FR 8422 (March 8, 2019).

<sup>3</sup> CAIR had separate trading programs for annual sulfur dioxide (SO<sub>2</sub>) emissions, seasonal NO<sub>x</sub> emissions, and annual NO<sub>x</sub> emissions.
