[Docket No. CP17-79-000]

Florida Gas Transmission Company, L.L.C.; Notice of Availability of the Environmental Assessment for the Proposed Wekiva Parkway Relocation Project

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) for the Wekiva Parkway Relocation Project, proposed by Florida Gas Transmission Company, L.L.C. (Florida Gas) in the above-referenced docket. Florida Gas requests authorization to abandon in place and relocate portions of their existing 12-inch Sanford Lateral and 26-inch Sanford Lateral Loop pipeline in Lake and Seminole Counties, FL, that conflict with construction of the Florida Department of Transportation (FDOT) Wekiva Parkway. The affected pipelines are to be relocated to new adjacent right-of-way abutting the north side of FDOT's Wekiva Parkway right-of-way.

The EA assesses the potential environmental effects of the construction and operation of the Wekiva Parkway Relocation Project in accordance with the requirements of the National Environmental Policy Act (NEPA). The FERC staff concludes that approval of the proposed project, with appropriate mitigating measures, would not constitute a major federal action significantly affecting the quality of the human environment.
