The Proposal

The FAA is considering an amendment to 14 CFR part 71 to modify Class E airspace at Fremont, MI, for Fremont Municipal Airport. Controlled airspace extending upward from 700 feet above the surface of the earth is needed to contain aircraft executing instrument approach procedures. Class E airspace areas extending upward from 700 feet above the surface of the earth are published in paragraph 6005 of FAA Order 7400.9N dated September 1, 2005, and effective September 16, 2005, which is incorporated by reference in 14 CFR 71.1. The Class E designations listed in this document would be removed subsequently in the Order.

The FAA has determined that this proposed regulation only involves an establishment body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this proposed regulation—(1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

AGENCY: Coast Guard, DHS.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Coast Guard proposes establishing a temporary safety zone for the Town of Marblehead Fourth of July Fireworks. This safety zone is necessary to protect the life and property of the maritime public from the potential hazards associated with a fireworks display. If we determine that one would aid this rulemaking, we will hold one at a time and place announced by a later notice in the **Federal Register**.

Background and Purpose

This rule proposes to establish a safety zone on the waters of Marblehead Harbor within a 400-yard radius of the fireworks barge located at approximate position 42° 30'548" N., 70°50'098" W. The safety zone would be in effect from 8:30 p.m. until 10 p.m. e.d.t. on July 4, 2006. The rain date for the fireworks event is from 8:30 p.m. until 10 p.m. e.d.t. on July 5, 2006.

The safety zone would temporarily restrict movement within this effected portion of Marblehead Harbor and is needed to protect the maritime public from the dangers posed by a fireworks display. Marine traffic may transit safely outside the safety zone during the effective period. The Captain of the Port does not anticipate any negative impact on vessel traffic due to this event. Public

notifications will be made prior to the effective period of this proposed rule via safety marine information broadcasts and Local Notice to Mariners.

Discussion of Proposed Rule

The Coast Guard is establishing a temporary safety zone in Marblehead Harbor, Marblehead, Massachusetts. The safety zone would be in effect from 8:30 p.m. until 10 p.m. e.d.t. on July 4, 2006, with a rain date of 8:30 p.m. until 10 p.m. e.d.t. on July 5, 2006. Marine traffic may transit safely outside of the safety zone in the majority of Marblehead Harbor during the event. This safety zone will control vessel traffic during the fireworks display to protect the safety of the maritime public.

Due to the limited time frame of the fireworks display, the Captain of the Port anticipates minimal negative impact on vessel traffic due to this event. Public notifications will be made prior to the effective period via local media, local notice to mariners and marine information broadcasts.

Regulatory Evaluation

This proposed rule is not a "significant regulatory action" under section 3(f) of Executive Order 12866, Regulatory Planning and Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order. It is not "significant" under the regulatory policies and procedures of the Department of Homeland Security (DHS).

The Coast Guard expects the economic impact of this proposed rule to be so minimal that a full Regulatory Evaluation under the regulatory policies and procedures of DHS is unnecessary.

Although this proposed rule would prevent traffic from transiting a portion of Marblehead Harbor during the effective period, the effects of this rule will not be significant for several reasons: Vessels will be excluded from the proscribed area for only one and one half hours, and advance notifications will be made to the local maritime community by marine information broadcasts and Local Notice to Mariners.

Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601-612), the Coast Guard considered whether this proposed rule would have a significant economic impact on a substantial number of small entities. The term "small entities" comprises small businesses, not-for-profit organizations that are
