SUPPLEMENTARY INFORMATION:

OMB Control Number: 2105–0529.

Title: Procedures for Transportation Drug and Alcohol Testing Programs.

Type of Request: Renewal of a Previously Approved Information Collection.

Background: Under the Omnibus Transportation Employee Testing Act of 1991, DOT is required to implement a drug and alcohol testing program in various transportation-related industries. This specific requirement is elaborated in 49 CFR Part 40, Procedures for Transportation Workplace Drug and Alcohol Testing Programs. This request for a renewal of the information collection for the program includes 43 burden items among which are the U.S. Department of Transportation Alcohol Testing Form (ATF) and the DOT Drug and Alcohol Testing Management Information System (MIS) Data Collection Form.

The ATF includes the employee's name, the type of test taken, the date of the test, and the name of the employer. The ATF is essential to the alcohol testing program. Data on each test conducted, including test results, are necessary to document tests conducted and actions taken to ensure safety in the workplace.

The MIS form includes employer specific drug and alcohol testing information such as the reason for the test and the cumulative number of positive, negative and refusal test results. The MIS data is used by each of the affected DOT Agencies (i.e., Federal Aviation Administration, Federal Transit Administration, Federal Railroad Administration, Federal Motor Carrier Safety Administration, and the Pipeline and Hazardous Materials Safety Administration) and the United States Coast Guard when calculating their random testing rates.

Estimated Number of Respondents: The information will be used by transportation employers, Department representatives, and a variety of service agents. Estimated total number of respondents is 2,639,331.

Estimated Number of Responses: 6,548,043.

Frequency: The information will be collected annually.

Annual Estimated Total Number Burden Hours: 678,986

Discussion of Comments to the Docket

There were three respondents to the docket with a total of seven comments. Two of the respondents are consortium/third party administrators from the trucking and pipeline industries, and one respondent represented a collection site that performs pre-employment medical exams and DOT urine collections. Below are our responses to the respondents' comments.

Comment

Most of the respondents expressed support for the Department's use of the Alcohol Testing Form (ATF) to be the record of an alcohol test and the Management Information System (MIS) form to document an employer's DOT testing data. They also supported the Department's estimate of burden hours associated with collection and handling each of the forms.

DOT Response

The Department agrees with the commenters' supportive statements regarding use of the forms and the calculation of burden hours.
