

- CMOD Workshop Recap;
- CCC Workgroups/Subcommittees;
- 2026 CCC Meetings; and
- Other Business and Wrap-Up.

The timing and order in which agenda items are addressed may change as required to effectively address the issues. The CCC will meet as late as necessary to complete scheduled business.

Although non-emergency issues not contained in the meeting agenda may be discussed, those issues may not be the subject of formal action during these meetings. Action will be restricted to those issues specifically listed in this document and any issues arising after publication of this document that require emergency action under section 305 (c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

The public also should be aware that the meeting will be recorded and a transcript prepared. Consistent with 16 U.S.C. 1852, a copy of the recording is available upon request.

#### Special Accommodations

The meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Cate O'Keefe (see **ADDRESSES**) at least 5 days prior to the meeting date.

*Authority:* 16 U.S.C. 1801 *et seq.*

Dated: April 14, 2025.

#### Rey Israel Marquez,

*Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.*

#### Mid-Atlantic Fishery Management Council (MAFMC); Public Meeting

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice; public meeting.

**SUMMARY:** The Mid-Atlantic Fishery Management Council's Spiny Dogfish Monitoring Committee will hold a public webinar meeting.

**DATES:** The meeting will be held on Friday, May 2, 2025, from 8 a.m. to 10 a.m. For agenda details, see

**SUPPLEMENTARY INFORMATION.**

**ADDRESSES:** The meeting will be held via webinar. Connection information and any related materials will be posted to the MAFMC's website calendar prior to the meeting at [www.mafmc.org](http://www.mafmc.org).

*Council address:* Mid-Atlantic Fishery Management Council, 800 N. State Street, Suite 201, Dover, DE 19901; telephone: (302) 674-2331; [www.mafmc.org](http://www.mafmc.org).

**FOR FURTHER INFORMATION CONTACT:** Christopher M. Moore, Ph.D., Executive Director, Mid-Atlantic Fishery Management Council, telephone: (302) 526-5255.

**SUPPLEMENTARY INFORMATION:** The Spiny Dogfish Monitoring Committee will meet to develop recommendations regarding alternatives and analyses for a framework action that is considering modifications to payback accountability measures when spiny dogfish annual catch limits (ACLs) are exceeded. More information on this framework action is available at <https://www.mafmc.org/actions/spiny-dogfish-accountability-measures-fw>. Public comments will also be taken.

#### Special Accommodations

The meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aid should be directed to Shelley Spedden, (302) 526-5251, at least 5 days prior to the meeting date.

*Authority:* 16 U.S.C. 1801 *et seq.*

Dated: April 11, 2025.

#### Rey Israel Marquez,

*Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.*

## DEPARTMENT OF COMMERCE

### National Oceanic and Atmospheric Administration

**[RTID 0648-XE828J]**

#### Endangered and Threatened Species; Initiation of 5-Year Reviews for Six Foreign Elasmobranch Species

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice; request for information.

**SUMMARY:** NMFS announces the initiation of 5-year reviews of six foreign elasmobranch species: Argentine angelshark (*Squatina argentina*), spiny angelshark (*S. guggenheim*), narrownose smoothhound shark (*Mustelus schmitti*), striped smoothhound shark (*M.*

*fasciatus*), common guitarfish (*Rhinobatos rhinobatos*), and blackchin guitarfish (*R. cemiculus*). The Endangered Species Act (ESA) requires us to conduct a review of listed species at least once every 5 years to determine whether a species should be removed from the list (*i.e.*, delisted), reclassified from an endangered species to a threatened species (*i.e.*, downlisted), or reclassified from a threatened species to an endangered species (*i.e.*, uplisted). The determination must be based on the best scientific and commercial data available at the time of the review. Therefore, we request relevant data (*e.g.*, biology, threats, and conservation efforts) that have become available since the previous reviews of these species.

**DATES:** To allow us adequate time to conduct the 5-year reviews, we must receive your information no later than September 15, 2025. While we accept new information about any listed species at any time, information received after the date stated above may not be considered for these reviews.

**ADDRESSES:** Submit your information electronically via the Federal eRulemaking Portal. Go to <https://www.regulations.gov> and enter NOAA-NMFS-2025-0033 in the Search box. Click the "Comment" icon, complete the required fields, and enter or attach your comments.

*Instructions:* We may not consider comments or information sent by another method, to another address or individual, or received after the date stated above. All comments and information received are a part of the public record, and we will post the comments for public viewing on <https://www.regulations.gov>. All personal identifying information (*e.g.*, name, address, *etc.*) submitted voluntarily by the sender will be publicly accessible. Do not submit confidential business information or otherwise sensitive or protected information. We will accept anonymous comments. Enter "N/A" in the required fields to remain anonymous.

**FOR FURTHER INFORMATION CONTACT:** Jennifer Schultz, Office of Protected Resources, 301-427-8443, [jennifer.schultz@noaa.gov](mailto:jennifer.schultz@noaa.gov).

**SUPPLEMENTARY INFORMATION:** We are initiating the 5-year reviews of six foreign elasmobranch species, including three endangered species (Argentine angelshark, spiny angelshark, and striped smoothhound shark) and three threatened species (narrownose smoothhound shark, common guitarfish, and blackchin guitarfish). Section 4(c)(2) of the ESA requires us to conduct a review of listed species at least once

every 5 years to determine whether species should be removed from the list, changed in status from an endangered species to a threatened species, or changed in status from a threatened species to an endangered species (16 U.S.C. 1533(c)(2)). Section 4(a)(1) of the ESA requires us to determine whether any species is an endangered or threatened species because of any of the following factors: (A) the present or threatened destruction, modification, or curtailment of its habitat or range; (B) overutilization for commercial, recreational, scientific, or educational purposes; (C) disease or predation; (D) the inadequacy of existing regulatory mechanisms; or (E) other natural or manmade factors affecting its continued existence (16 U.S.C. 1533(a)(1)). Section 4(b)(1)(A) of the ESA requires us to make the determination based solely on the best scientific and commercial data available at the time of the review and after taking into account efforts to protect the species (16 U.S.C. 1533(b)(1)(A)). Regulations (50 CFR 424.21) require us to publish a notice in the **Federal Register** announcing species under active review.

In 2015, we published status reviews of the Argentine angelshark, spiny angelshark, striped smoothhound shark, and narrownose smoothhound shark. In 2017, we published a status review of the common and blackchin guitarfishes. These status reviews and additional information on the species are available on NMFS' website: <https://www.fisheries.noaa.gov/national/conservation/endangered-species-conservation/foreign-species>. After reviewing information available since the publication of these status reviews, we will make our determinations regarding the classification of these species and publish them on NMFS' website. Any recommended changes (*i.e.*, delistings and/or reclassifications) would require a separate rulemaking process.

#### Public Solicitation of Relevant Information

To ensure that the 5-year reviews are based on the best scientific and commercial data available, we are soliciting information from the public, governmental agencies, Tribes, the scientific community, industry, environmental organizations, and other interested parties. We request information that has become available since the previous reviews were published in 2015 (Argentine and spiny angelsharks and striped and narrownose smoothhound sharks) and 2017 (common and blackchin guitarfishes). Categories of requested information include: (1) species biology including,

but not limited to, abundance, population trends, demographics, distribution, and diversity; (2) habitat conditions including, but not limited to, amount, distribution, suitability, and important features for conservation; (3) degree, nature, and trends of threats to the species and its habitats, especially those factors described in section 4(a)(1) of the ESA; (4) conservation efforts that have been implemented to benefit the species, including monitoring data demonstrating the effectiveness of such efforts; and (5) other information, data, or corrections including taxonomic or nomenclatural changes and improved analytical methods for evaluating extinction risk.

We request that all information be accompanied by supporting documentation such as maps, bibliographic references, or reprints of pertinent publications. Please submit all information and supporting documentation electronically (see **ADDRESSES** section).

*Authority:* 16 U.S.C. 1531 *et seq.*

Dated: April 14, 2025.

**Kimberly Damon-Randall,**

*Director, Office of Protected Resources,  
National Marine Fisheries Service.*

### National Oceanic and Atmospheric Administration

[RTID 0648-XE817]

#### Reopening of Nominations for the Western and Central Pacific Fisheries Commission Permanent Advisory Committee

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of request for nominations; reopening of solicitation for nominations.

**SUMMARY:** NMFS is reopening the solicitation announced on January 21, 2025, in the **Federal Register**, for nominations (which may include self-nominations) to the Advisory Committee to the U.S. Section to the Permanent Advisory Committee (PAC) as established under the Western and Central Pacific Fisheries Convention (WCPFC) Implementation Act (Act). The PAC, composed of individuals from groups concerned with the fisheries covered by the Western and Central Pacific Fisheries Convention (Convention), provides

recommendations to the U.S. Commissioners to the Western and Central Pacific Fisheries Commission (Commission) regarding the deliberations and decisions of the Commission.

**DATES:** NMFS is reopening the solicitation for nominations announced on January 21, 2025 (90 FR 7080). Nominations must be received by Wednesday, April 30, 2025.

**ADDRESSES:** Nominations, including a letter of interest and a resume or curriculum vitae, should be sent via email to Katrina Poremba at [pir.wcpfc@noaa.gov](mailto:pir.wcpfc@noaa.gov). Include in the subject line the nomination for a position as an Advisory Committee member. The following information should be included in the nomination documents: (1) full name, address, telephone, and email address of nominee; (2) nominee's organization(s) or professional affiliation(s) serving as the basis for the nomination, if any; and (3) a background statement, not to exceed one page in length, describing the nominee's qualifications, experience and interests, specifically as related to the fisheries covered by the Convention.

**FOR FURTHER INFORMATION CONTACT:** Katrina Poremba, NMFS Pacific Islands Regional Office; 1845 Wasp Blvd., Bldg. 176, Honolulu, HI 96818; email: [pir.wcpfc@noaa.gov](mailto:pir.wcpfc@noaa.gov); phone: (808) 725-5096.

#### SUPPLEMENTARY INFORMATION:

##### The Convention and the Commission

The objective of the Convention is to ensure, through effective management, the long-term conservation and sustainable use of highly migratory fish stocks in the western and central Pacific Ocean in accordance with the United Nations Convention on the Law of the Sea of 10 December 1982 (UNCLOS) and the Agreement for the Implementation of the Provisions of the UNCLOS Relating to the Conservation and Management of Straddling Fish Stocks and Highly Migratory Fish Stocks. The Convention establishes the Commission, the secretariat of which is based in Pohnpei, Federated States of Micronesia.

The Convention applies to all highly migratory fish stocks (defined as all fish stocks of the species listed in Annex I of the UNCLOS occurring in the Convention Area, and such other species of fish as the Commission may determine), except saurians.

The United States actively supported the negotiations and the development of the Convention and signed the Convention when it was opened for signature in 2000. It participated as a
