Authorization of Contractor Use of Interagency Fleet Management System (IFMS) Vehicles

AGENCY: National Aeronautics and Space Administration.

ACTION: Final rule.

SUMMARY: This final rule revises the NASA FAR Supplement (NFS) by requiring an internal Agency clearance

before authorizing contractors' use of interagency fleet management system (IFMS) vehicles. This final rule also makes editorial changes to conform section numbering as a result of Federal Acquisition Circular (FAC) 01-09.

EFFECTIVE DATE: November 12, 2002.

FOR FURTHER INFORMATION CONTACT:

Patrick Flynn, NASA, Office of Procurement, Contract Management Division (Code HK); (202) 358-0460; e-mail: patrick.flynn@hq.nasa.gov.

SUPPLEMENTARY INFORMATION:

A. Background

Executive Order 13149, "Greening the Government through Federal Fleet and Transportation Efficiency" requires, *inter alia*, that each agency operating 20 or more motor vehicles within the United States reduce its entire vehicle fleet's annual petroleum consumption by at least 20 percent by the end of FY 2005, compared with FY 1999 petroleum consumption levels. In order to achieve this goal, more centralized management and reporting is required. This change requires concurrence by installation transportation officers prior to contracting officer authorization of contractor requests to obtain IFMS vehicles. This change will assure transportation management participation in the contract authorization process. Additionally, this final rule revises section designations within part 1808 as a result of changes made by FAC 01-09.

This is not a significant regulatory action and, therefore, was not subject to review under section 6(b) of Executive Order 12866, Regulatory Planning and Review, dated September 30, 1993. This final rule is not a major rule under 5 U.S.C. 804.

B. Regulatory Flexibility Act

This final rule does not constitute a significant revision within the meaning of FAR 1.501 and Pub. L. 98-577, and publication for public comment is not required. However, NASA will consider comments from small entities concerning the affected NFS parts 1808 and 1851 in accordance with 5 U.S.C. 610.

C. Paperwork Reduction Act

The Paperwork Reduction Act does not apply because the changes do not impose recordkeeping or information collection requirements which require the approval of the Office of Management and Budget under 44 U.S.C. 3501, *et seq.*

RIN 2700-AC33

Government Property—Instructions for Preparing NASA Form 1018

AGENCY: National Aeronautics and Space Administration.

ACTION: Interim rule.

SUMMARY: This interim rule amends the NASA Federal Acquisition Regulation Supplement (NFS) to provide policies and procedures for proper reporting of heritage assets as part of contractor annual reports of NASA property in its custody, and to clarify other property

classifications. NASA uses the data contained in contractor reports for annual financial statements and property management. This change will provide for consistent reporting of NASA property by contractors.

DATES: *Effective Date:* This interim rule is effective November 12, 2002.

Comment Date: Comments should be submitted to NASA at the address below on or before January 13, 2003.

FOR FURTHER INFORMATION CONTACT: Lou Becker, NASA Headquarters, Office of Procurement, Contract Management Division (Code HK), Washington, DC 20546, telephone: (202) 358-4593, e-mail to: lbecker@hq.nasa.gov.

SUPPLEMENTARY INFORMATION:

A. Background

NASA must account for and report assets in accordance with 31 U.S.C. 3515, Federal Accounting Standards, and Office of Management and Budget (OMB) Bulletin No. 01-09, Form and Content of Agency Financial Statements. Since contractors maintain NASA's official records for NASA-owned assets in contractors' possession, NASA must obtain annual data from those records in order to facilitate proper accounting and control over the assets. This interim rule provide policies and procedures for proper reporting of heritage assets by providing a definition and directing that these assets be reported within appropriate property classifications. This interim rule also clarifies other property classifications and provides cross references to the FAR to insure proper reporting of these assets.

B. Regulatory Flexibility Act

NASA certifies that this interim rule will not have a significant economic impact on a substantial number of small businesses within the meaning of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) because it clarifies existing property reporting policies and procedures contractors must follow when accounting for and reporting assets.

C. Paperwork Reduction Act

The Paperwork Reduction Act does not apply because the changes to the NFS do not impose new recordkeeping or information collection requirements which require the approval of the Office of Management and Budget under 44 U.S.C. 3501, *et seq.*

D. Determination To Issue an Interim Rule

In accordance with 41 U.S.C. 418(d), NASA has determined that urgent and

compelling reasons exist to promulgate this interim rule. The basis for this determination is that the clarifications contained in this interim rule are needed to ensure consistent reporting of NASA assets in contractor annual reports to be submitted by October 31, 2002. Public comments received in response to this interim rule will be considered in the formation of the final rule.
