Article 17.5 further requires, unless the governments otherwise agree, that each meeting of the EAC include a session in which members of the EAC have an opportunity to meet with the public to discuss matters relating to the implementation of chapter 17.

In Article 17.9 of the CAFTA–DR, the governments recognize the importance of strengthening capacity to protect the environment and to promote sustainable development in concert with strengthening trade and investment relations and state their commitment to expanding their cooperative relationship on environmental matters. Article 17.9 also references the ECA, which sets out certain priority areas of cooperation on environmental activities that are also reflected in Annex 17.9 of the CAFTA–DR. These priority areas include, among other things: reinforcing

institutional and legal frameworks and the capacity to develop, implement, administer, and enforce environmental laws, regulations, standards, and policies; conserving and managing shared, migratory and endangered species in international trade and management of protected areas; promoting best practices leading to sustainable management of the environment; and facilitating technology development and transfer and training to promote clean production technologies.
