#### **SUPPLEMENTARY INFORMATION:**

##### **I. Background**

The Institute of Museum and Library Services is an independent Federal grant-making agency authorized by the Museum and Library Services Act, Public Law 104-208. IMLS provides a variety of grant programs to assist the nation's museums and libraries in improving their options and enhancing their services to the public. Museums and libraries of all sizes and types may receive support from IMLS programs.

The President's FY 2003 Budget Request submitted to Congress in early February, 2002, proposes a \$10 million initiative to educate and train librarians. Anticipating the loss of as many as 68% of the current cohort of professional librarians by 2019, the initiative will be designed to "help recruit a new generation of librarians."

The President's proposed initiative recognizes the key role of libraries and librarians in maintaining the flow of information that is critical to support formal education; to guide intellectual, scientific, and commercial enterprise; to

strengthen individual decisions; and to create the informed populace that lies at the core of democracy."

Draft applications and guidelines are prepared contingent upon availability of funding.

## **II. Scope of Information Requested**

IMLS is particularly interested in comments that helps the agency to (1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) Enhance the quality, utility, and clarity of the information to be collected; and (4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.
