- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Bureau of Justice Statistics, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Evaluate whether and if so how the quality, utility, and clarity of the information to be collected can be enhanced; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Overview of This Information Collection

1. *Type of Information Collection:* Extension of a currently approved collection.
2. *The Title of the Form/Collection:* Customer Satisfaction Assessment.
3. *The agency form number, if any, and the applicable component of the Department sponsoring the collection:* The form number is FD-1000. The applicable component within the DOJ is the FBI Laboratory.
4. *Affected public who will be asked or required to respond, as well as a brief abstract:* Respondents primarily include federal, state, and local law enforcement. Respondents also include the intelligence community, Department of Defense, and international police agencies personnel and/or crime laboratory personnel. This collection is a brief questionnaire regarding contributors' satisfaction with the services provided by the Federal Bureau of Investigation Laboratory. This collection is needed to evaluate the quality of services provided by the FBI Laboratory. The FBI Laboratory is accredited by the ANSI National Accreditation Board (ANAB). A requirement for maintaining accreditation is to evaluate the level of service provided by the FBI Laboratory to our customers. To meet this requirement, the FBI Laboratory is requesting its customers to complete and return the *Customer Satisfaction Assessment*.
5. *An estimate of the total number of respondents and the amount of time*

estimated for an average respondent to respond: An estimated 500 respondents will complete the Customer Satisfaction Assessment survey in 2021. This estimate is based on the number of respondents in prior years of this collection. It is estimated that respondents will need 5 minutes to complete a questionnaire.

6. *An estimate of the total public burden (in hours) associated with the collection:* The estimated public burden associated with this collection is 42 hours. It is estimated that respondents will need 5 minutes to complete a questionnaire. The burden hours for collecting respondent data sum to approximately 42 hours (500 respondents × 5 minutes = 41.67 hours).
