1. In this order, the Commission accepts a notice of change in status filed by Calpine Energy Services, L.P. (CES) and its affiliated public utilities (collectively, the Calpine Entities), to report a change in status that reflects a departure from the characteristics that the Commission relied upon in granting these entities market-based rate authority, pursuant to the reporting requirements of Order No. 652.<sup>1</sup> For the reasons discussed below, and based on Calpine Entities' representations, we accept the Calpine Entities' change in status filing.

#### Background

2. On September 9, 2005, CES and the Calpine Entities filed a notice of change in status to report that CES, a power marketer, had entered into two Energy Management Agreements regarding certain third party-owned electric generating assets as described below. In addition, the Calpine Entities state that CES anticipates entering into a third such agreement, as also described below. The Calpine Entities state that under the Commission's regulations, they are required to report any change in status that would reflect a departure from the characteristics the Commission relied upon in granting them market-based rate authority.<sup>2</sup> The Calpine Entities assert that they are providing this notice here out of an abundance of caution based on their belief that the Energy Management Agreements described in their filing do not constitute a change in status, as contemplated by the Commission's regulations. The Calpine Entities claim that CES will not acquire control of the facilities at issue under these agreements.<sup>3</sup>

3. The Calpine Entities state that even assuming CES is deemed to acquire control of these facilities, this authority would not alter the Commission's prior determinations that CES and its

<sup>1</sup> Reporting Requirement for Changes in Status for Public Utilities with Market-Based Rate Authority, FERC Stats. & Regs., Regulations Preambles III ¶ 31,175 (Feb. 10, 2005) (Order No. 652), order on reh'g, 111 FERC ¶ 61,413 (2005). 18 CFR 35.27(c) (2005).

<sup>2</sup> See, e.g., 18 CFR 35.27(c)(1) (defining a "change in status" to include, but not be limited to, "ownership or control of generating or transmission facilities or inputs to electric power production other than fuel supplies.").

<sup>3</sup> The agreements themselves were not included by the Calpine Entities in their submittal.

affiliates satisfy the Commission's four-part test for market based rate authority.

#### The IECC Agreement

4. The Calpine Entities state that on July 29, 2005, CES and Inland Empire Energy Center, LLC (IECC) entered into an Energy Management Agreement (IECC Agreement), pursuant to which CES will provide certain services to IECC, the owner of a 775 MW natural gas-fired electric generating facility located in Riverside County, California (IECC Facility). The Calpine Entities state that the IECC Facility is expected to begin commercial operations in 2008, with the output of the facility to be delivered into the transmission system operated by the California Independent System Operator, Inc. (CAISO).

5. The Calpine Entities state that CES will act as IECC's agent to market and schedule the energy, capacity, ancillary services, and any other product produced by the IECC Facility and arrange for the procurement and maintenance of transmission service for the products produced by the IECC Facility. CES states it will also arrange for the procurement and scheduling of natural gas supplies for use at the IECC Facility. The Calpine Entities state that IECC will be the operator of the IECC Facility and that CES will act pursuant to orders from IECC. CES states it will have limited discretion as to prices for which it sells the output of the IECC Facility and purchases products used to generate the IECC's Facility's output and deliver this output to third parties.

#### The POA Agreement

6. The Calpine Entities state that on August 5, 2005, CES and Project Orange Associates, L.L.C. (POA) entered into an Energy Management Agreement (POA Agreement), pursuant to which CES will provide certain services to POA, the owner of an 80 MW natural gas-fired cogeneration facility located in Syracuse, New York (POA Facility). The Calpine Entities state that the output of the POA Facility will be sold into the markets operated by the New York Independent System Operator (NYISO). CES states that it will act as POA's agent and, as directed by POA, bid, schedule, and sell the output of the POA Facility in the NYISO market. CES also states it will schedule natural gas transportation deliveries and assist in managing POA's pipeline imbalances. The Calpine Entities state that CES will have limited discretion concerning the prices for which it sells the output of the POA Facility and purchases fuel and other products.
