

the BLM manages the public lands and inconsistent with section 501(a) of FLPMA (43 CFR 2804.26(a)(1) and (a)(4)).

Skull Valley Road

Eliminating the proposed rail line right-of-way application U 76985, the second right-of-way application, was discussed in Alternatives 3 and 4 of the EIS (same basic route using the existing Skull Valley Road to the two different nearby sites on the Reservation). Right-of-way application U 76986 would entail constructing an Intermodal Transfer Facility (ITF) and rail siding to be built on lands managed by BLM at the existing main Union Pacific rail line near Timpie, Utah, to transfer SNF shipping casks from rail cars to the heavy-haul vehicles, which would then transport the SNF along the existing Skull Valley Road to the site on the Reservation. No rail line would be built under these alternatives, as the sole access is from the Skull Valley Road. Skull Valley Road is an undivided, two-lane public road, one lane in each direction. The BLM issued a right-of-way (U 04240) for this road to the Utah State Road Commission on May 17, 1951. For the BLM's decisional purposes, these alternatives would involve the issuance of a right-of-way grant authorizing the use of public land for the ITF.

The EIS indicates that these alternatives were not selected because construction and use of the rail line would have advantages over the use of the ITF. The ITF requires the use of heavy-haul trailers traveling on Skull Valley Road at speeds not to exceed 20 miles per hour. Impacts to local traffic would be difficult to mitigate, impacts which could be entirely avoided by use of the rail line from Skunk Ridge. Also, the ITF would involve additional doses of radiation incurred by workers transferring SNF shipping casks from rail cars to heavy-haul vehicles at the ITF. This additional dosage would also be avoided if the rail option were to be used instead of the ITF option. Thus, alternatives analyzing intermodal transfer facilities were not selected because to grant the right-of-way sought by PFS in application U 76986 based on the existing record would be contrary to the public interest (43 CFR 2804.26(a)(2)).
