SUPPLEMENTARY INFORMATION:

Background

Artificial Intelligence (AI) technologies are rapidly transforming industries, economies, and societies. The Federal Government aims to address the dynamic landscape of AI through informed policy discussions, ensuring these technologies are developed and deployed responsibly.

Emerging AI trends include machine learning advancements, natural language processing, applications in vehicles, drones, and robots, as well as the integration of big data.

Considerations to policy should be informed by ethical AI development, privacy and security, workforce impact, collaboration, and standardization while

promoting innovation and acting ethically.

Format

The Emerging Trends and Policy Symposium convenes leaders from the Federal Government, academia, and industry to discuss their experiences with artificial intelligence. The summit will include four presentations and a fireside chat panel discussion.

If you have questions for the panelists, you can email them to mefrontoffice@gsa.gov.
