

evaluate the petitions in a uniform manner.

In an effort to achieve more consistency, FDA developed a draft guidance entitled "Utility Studies for Anti-*Salmonella* Chemical Food Additives in Animal Feeds." The availability of this draft guidance was announced in the **Federal Register** of June 23, 1994 (59 FR 32442). A public workshop on this topic was held on August 8, 1994, in conjunction with the annual meeting of the Poultry Science Association in Starkville, MS. Comments at the public workshop and the written comments received on the draft guidance led FDA to revise the draft document. The agency clarified several statements that had caused confusion or had raised questions among the respondents. Further, following suggestions from the respondents, the agency made several changes in the testing methods.

The purpose of this final guidance is to support consistent evaluation of anti-*Salmonella* food additives and their ability to maintain a *Salmonella*-negative level in previously "clean" animal feeds through repeated exposure to various *Salmonella* serotypes. This guidance should help ensure that sponsors conduct appropriate studies to evaluate the utility of anti-*Salmonella* food additives, and that FDA accomplish uniform review and decisionmaking. In turn, this should facilitate the approval process for such food additives.

This final guidance explains the recommended experimental process in detail and references other FDA documents that pertain to general experimental practices and procedures recommended by FDA. The guidance provides details concerning recommended testing methods.

II. Significance of Guidance

This guidance is being issued consistent with FDA's good guidance practices regulation (21 CFR 10.115). The final guidance represents the agency's current thinking on anti-*Salmonella* food additives for keeping feeds *Salmonella*-negative. It does not create or confer any rights for or on any

person and does not operate to bind FDA or the public. An alternative approach may be used if such approach satisfies the requirements of the applicable statutes and regulations.

III. Paperwork Reduction Act of 1995

There are nine or fewer respondents to the information collection described in this guidance and therefore no burden analysis is required under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501-3520).

Title: Guidance for Industry: Studies to Evaluate the Utility of Anti-*Salmonella* Chemical Food Additives in Feeds.

Description: In 1990, FDA announced its goal of *Salmonella*-negative animal feed and feed ingredients (see 59 FR 33975, July 1, 1994). The policy responds to concerns that *Salmonella* infections cause a significant portion of foodborne illnesses, and that animal feeds serve as a significant source of *Salmonella* infections in food animals and consequently in humans. In response, sponsors have developed several products designed to achieve and maintain *Salmonella*-negative levels in animal feeds. The sponsors also have filed the requisite food additive petitions that prove both the safety and utility of the additive products. However, up to this point, it has been difficult for FDA to evaluate the petitions in a consistent manner, as the research methods supporting the petitions have varied to a significant degree.

This final guidance document describes standards upon which studies to establish the utility of anti-*Salmonella* chemical food additives for maintaining feeds *Salmonella*-negative should be based. Certain types of information should be collected in these studies, as described in the final guidance.

IV. Comments

Interested persons may submit to the Dockets Management Branch (see **ADDRESSES**) written or electronic comments regarding this final guidance at any time. Two copies of any comments are to be submitted, except

that individuals may submit one copy. Comments are to be identified with the docket number found in brackets in the heading of this document. The guidance and received comments are available for public inspection in the Dockets Management Branch between 9 a.m. and 4 p.m., Monday through Friday.

The actual amount available for the award may vary depending on unanticipated program requirements and actual SAMHSA appropriations.

This program is being announced prior to the annual appropriation for FY 2003 for SAMHSA's programs. Applications are invited based on the assumption that

sufficient funds will be appropriated for FY 2003 to permit funding of Community Collaborations to Prevent Youth Violence and Promote Youth

Development grants. This program is being announced in order to allow applicants sufficient time to plan and prepare applications. Solicitation of applications in advance of a final appropriation will also enable the award of appropriated grant funds in an expeditious manner and thus allow prompt implementation and evaluation of promising practices. All applicants are reminded, however, that we cannot guarantee sufficient funds will be appropriated to permit SAMHSA to fund the grants. This program is authorized under section 520A of the Public Health Service Act. SAMHSA's policies and procedures for peer review and Advisory Council review of grant and cooperative agreement applications were published in the **Federal Register** (Vol. 58, No. 126) on July 2, 1993.

General Instructions: Applicants must use application form PHS 5161-1 (Rev. 7/00). The application kit contains the two-part application materials (complete programmatic guidance and instructions for preparing and submitting applications), the PHS 5161-1 which includes standard form 424 (face page), and other documentation and forms. Application kits may be obtained from: SAMHSA's Mental Health Information Center, (800) 789-2647.

The PHS 5161-1 application form and the full text of the grant announcement are also available electronically via SAMHSA's World Wide Web home page: <http://www.samhsa.gov> (click on "Grant Opportunities").

When requesting an application kit, the applicant must specify the particular announcement number for which detailed information is desired. All information necessary to apply, including where to submit applications and application deadline instructions, are included in the application kit.

Public Health System Reporting Requirements: The Public Health System Impact Statement (PHSIS) is intended to keep State and local health officials apprised of proposed health services grant and cooperative agreement applications submitted by community-based nongovernmental organizations within their jurisdictions.

Community-based nongovernmental service providers who are not transmitting their applications through the State must submit a PHSIS to the head(s) of the appropriate State and local health agencies in the area(s) to be affected not later than the pertinent receipt date for applications. This PHSIS consists of the following information:

- a. A copy of the face page of the application (Standard form 424).
- b. A summary of the project (PHSIS), not to exceed one page, which provides:
 - (1) A description of the population to be served.
 - (2) A summary of the services to be provided.
 - (3) A description of the coordination planned with the appropriate State or local health agencies.

State and local governments and Indian Tribal Authority applicants are not subject to the Public Health System Reporting Requirements. Application guidance materials will specify if a particular FY 2003 activity is subject to the Public Health System Reporting Requirements.

PHS Non-use of Tobacco Policy Statement: The PHS strongly encourages all grant and contract recipients to provide a smoke-free workplace and promote the non-use of all tobacco products. In addition, Public Law 103-227, the Pro-Children Act of 1994, prohibits smoking in certain facilities (or in some cases, any portion of a facility) in which regular or routine education, library, day care, health care, or early childhood development services are provided to children. This is consistent with the PHS mission to protect and advance the physical and mental health of the American people.

Executive Order 12372: Applications submitted in response to the FY 2003 activity listed above are subject to the

intergovernmental review requirements of Executive Order 12372, as implemented through DHHS regulations at 45 CFR part 100. E.O. 12372 sets up a system for State and local government review of applications for Federal financial assistance. Applicants (other than Federally recognized Indian tribal governments) should contact the State's Single Point of Contact (SPOC) as early as possible to alert them to the prospective application(s) and to receive any necessary instructions on the State's review process. For proposed projects serving more than one State, the applicant is advised to contact the SPOC of each affected State. A current listing of SPOCs is included in the application guidance materials or on SAMHSA's website under "Assistance with Grant Applications". The SPOC should send any State review process recommendations directly to: Division of Extramural Activities, Policy, and Review, Substance Abuse and Mental Health Services Administration, Parklawn Building, Room 17-89, 5600 Fishers Lane, Rockville, Maryland 20857. The due date for State review process recommendations is no later than 60 days after the specified deadline date for the receipt of applications. SAMHSA does not guarantee to accommodate or explain SPOC comments that are received after the 60-day cut-off.

Executive Officer, SAMHSA.
