Are There Changes in the Estimates From the Last Approval?

The previous clearance consisted of 221,808 hours and \$13,277,604 in total costs. The small changes are due to a decrease in annual certification applications, from 30 to 10, and an update in labor costs.

What Is the Next Step in the Process for This ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

SUPPLEMENTARY INFORMATION: Each decade since 1979, the U.S. Department of Health and Human Services (HHS) has published a comprehensive set of national public health objectives. Known as *Healthy People*, this initiative has been grounded in the notion that setting objectives and monitoring progress can motivate action. As it prepares to produce objectives for the next decade, HHS seeks to ensure that they are scientifically valid, relevant, and sustainable. The objectives should be produced through a process that fosters the cooperation and commitment of both the public and private sectors.

The Secretary's Advisory Committee on National Health Promotion and Disease Prevention Objectives for 2020 is established to provide advice and assistance to the Secretary and HHS in the development of health promotion and disease prevention objectives to improve the health of Americans by 2020. The Standards of Ethical Conduct for Employees of the Executive Branch are applicable to individuals who are appointed as members of Federal advisory committees. SGEs are Government employees for the purposes of the conflict of interest laws. Therefore, individuals appointed to serve as members of the Secretary's Advisory Committee on National Health Promotion and Disease Prevention Objectives for 2020 are subject to an ethics review. The ethics review is conducted to determine if the individual has any interest and/or activities in the private sector that may conflict with performance of their official duties as a member of the Committee.
