SUPPLEMENTARY INFORMATION:

Title: The 2012 Census of Agriculture.

OMB Control Number: 0535-0226.

Expiration Date of Previous Approval: July 31, 2009.

Type of Request: Intent to Seek Reinstatement of an Information Collection.

Abstract: The census of agriculture is the primary source of statistics concerning the nation's agricultural industry. It provides the only basis of consistent, comparable data for each county, county equivalent, and State in the United States and its outlying insular areas. The census is conducted every 5 years, the last one being for the reference year of 2007. The 2012 census of agriculture will again cover all agricultural operations in the 50 States, Puerto Rico, Guam, the U.S. Virgin Islands, the Commonwealth of Northern Mariana Islands (CNMI), and American Samoa which meet the census definition for a farm. For the 50 States, Guam, and CNMI, a farm is any place that produced and sold, or normally would produce and sell, \$1,000 or more of agricultural products during the census reference year. For Puerto Rico and the U.S. Virgin Islands it is any place with \$500 in production and sales. American Samoa is not limited by a threshold for production or sales and includes items grown for home consumption.

Data collection for the censuses of agriculture for the 50 States and Puerto

Rico will be conducted primarily by mail-out/mail-back procedures, with phone and field enumeration for targeted non-respondents. Data collection for Guam, the U.S. Virgin Islands, and CNMI will be conducted using direct enumeration methods. For the 50 States, respondents will be contacted up to 3 times by mail, and additional telephone or personal interview follow-up for mail non-respondents. Questionnaires that are returned by the Post Office as non-deliverable will be removed from our target population and subsequent mailings. Respondents who contact one of our phone centers to notify NASS of their farming status or to complete a questionnaire will also be removed from any subsequent mailings.

NASS conducted a census form content test (OMB #5035-0243) during the winter of 2010-2011 to evaluate new content items, report form design and format, and processing procedures.

To minimize respondent burden, NASS limits the items asked on 75 percent of the report forms to the basic subjects asked in the previous census, such as land use and ownership, crop acreage and production, grain storage, livestock and poultry inventories, federal farm program payments, income from farm-related sources, and operator characteristics. The other 25 percent of report forms include additional questions on hired labor, production expenses, fertilizer and chemical usage, machinery and equipment, and market value of land and buildings. NASS is working to increase the speed and ease at which any respondent may fill out the form by incorporating improved screening questions at the beginning of each section of the form. This reduces overall respondent burden, particularly for small operations and operations specializing in only a few commodities. Report forms are tailored to various regions of the country to further reduce burden. A screening survey, conducted prior to the census, will enable NASS to eliminate non-farm operations from the census mail list and determine respondent eligibility for receiving the appropriate census mail package.

The census of agriculture is required by law under the "Census of Agriculture Act of 1997," Public Law 105-113, 7 U.S.C. 2204(g). Individually identifiable data collected under this authority are governed by Section 1770 of the Food Security Act of 1985 as amended, 7 U.S.C. 2276, which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents. This Notice is submitted in accordance with the Paperwork Reduction Act of 1995, Public Law 104-

13 (44 U.S.C. 3501, *et seq.*) and Office of Management and Budget regulations at 5 CFR part 1320.

NASS also complies with OMB Implementation Guidance, "Implementation Guidance for Title V of the E-Government Act, Confidential Information Protection and Statistical Efficiency Act of 2002 (CIPSEA),"

Federal Register, Vol. 72, No. 115, June 15, 2007, p. 33362. The law guarantees farm operators that their individual information will be kept confidential. NASS uses the information only for statistical purposes and publishes only tabulated total data. These data are used by Congress when developing or changing farm programs. Many national and state programs are designed or allocated based on census data, *i.e.*, soil conservation projects, funds for cooperative extension programs, and research funding. Private industry uses the data to provide more effective production and distribution systems for the agricultural community.

Estimate of Burden: Public reporting burden for this collection of information will be about 50 minutes per census form, 10 minutes per screening form, and 2 minutes per refusal from all sources.

Respondents: Farm and ranch operators.

Estimated Number of Respondents: 3,025,000.

Estimated Total Annual Burden on Respondents: 2,410,000 hours.

In 2007, the burden for the Census of Agriculture was calculated by assigning the average burden to the target population. The 2007 burden did not account for the multiple mailings of the questionnaires and instruction sheets to non-respondents. After adjusting the previous OMB submission to include the level of detail used this time, there are no significant changes in respondent burden or population size. The data collection procedures used in 2007 are relatively the same as what is being proposed for the 2012 Census of Agriculture.

Copies of this information collection and related instructions can be obtained without charge from David Hancock, NASS-OMB Clearance Officer, at (202) 690-2388 or at ombofficer@nass.usda.gov.

Comments: Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used;

(c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, technological or other forms of information technology collection methods.

All responses to this notice will become a matter of public record and be summarized in the request for OMB approval.

Signed at Washington, DC, April 20, 2011.

Joseph T. Reilly,

Associate Administrator.
