SUPPLEMENTARY INFORMATION:**I. Background**

FDA is announcing the availability of guidance for industry entitled “Providing Regulatory Submissions in Electronic Format—Receipt Date.” This guidance describes how FDA will assign receipt dates to certain submissions provided in electronic format or in physical media to CDER and CBER.

When CDER or CBER receives a submission, the receipt date may be used to determine important regulatory milestones, such as FDA’s 30-day safety review cycle for an investigative new drug (IND) application. The guidance provides clarity regarding when items submitted electronically are deemed received by FDA for purposes of such milestones. Prior to issuance of this final guidance, certain submissions received through the electronic submission gateway (ESG) after 4:30 p.m. were deemed to be received on the

following business day. With this final guidance, we are generally eliminating this 4:30 p.m. cut-off for submissions received through the ESG Monday through Friday. However, certain submissions received through the ESG on a weekend, Federal holiday, or on a day when the FDA office that will review the submission is otherwise not open for business, will be assigned a receipt date corresponding to the next business day.

Occasionally, submissions in electronic format have technical deficiencies that prevent FDA from opening, processing, or archiving the submission. The guidance explains that FDA considers a technically deficient electronic submission to be not received (i.e., not present at the Agency and not under review) until all technical deficiencies are resolved.

On June 5, 2007 (72 FR 31079), FDA announced the availability of the draft version of this guidance. The public comment period closed on August 6, 2007. Several comments were received from the public, all of which the Agency considered carefully as it finalized the guidance and made appropriate changes. Those changes clarified the draft guidance and updated the document to reflect legislative provisions adopted since the draft was issued. More specifically, the final guidance generally eliminates the 4:30 p.m. cut-off for submissions received through the ESG Monday through Friday. It also provides guidance on FDA’s interpretation of a provision in the Generic Drug User Fee Amendments of 2012 (GDUFA) concerning the date of submission for Type II drug master files, Abbreviated New Drug Applications (ANDAs), and amendments and supplements to ANDAs.

This guidance is being issued consistent with FDA’s good guidance practices regulation (21 CFR 10.115). The guidance represents the Agency’s current thinking on determining the receipt date for certain submissions in electronic format or in physical media. It does not create or confer any rights for or on any person and does not operate to bind FDA or the public. An alternative approach may be used if such approach satisfies the requirements of the applicable statutes and regulations.

II. Paperwork Reduction Act of 1995

The guidance refers to collections of information that are subject to review by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995, 44 U.S.C. 3501–3520. The guidance pertains to sponsors and applicants making regulatory
