

committed to reform and is a strong partner of MCC—taking numerous steps to improve transparency and fight corruption over 2014, even in the face of the Ebola crisis. Sierra Leone also continued to improve its overall scorecard performance by meeting 12 of 20 indicators this year versus 11 of 20 last year. However, Sierra Leone did not meet MCC's scorecard criteria for the second year, again narrowly missing a passing score on the Control of Corruption indicator. By selecting Sierra Leone as eligible for threshold assistance, MCC aims to support the government in its efforts to continue its positive overall policy trajectory, while also allowing MCC to bolster Sierra Leone's efforts by supporting continued institutional and policy reforms as the country emerges from its Ebola crisis.

Countries reselected to continue developing threshold programs

This year the Board reselected Guatemala as eligible to continue developing a threshold program. Guatemala continues to pass more than half of the scorecard overall by meeting 11 of 20 indicators. It also continues to meet the Democratic Rights hurdle. Guatemala improved on the Control of Corruption indicator and currently performs on the median in the 50th percentile.

Ongoing review of partner countries' policy performance

Countries already implementing compacts do not need to be reselected each year in order to continue implementation. Once MCC makes a commitment to a country through a compact, MCC does not consider the country for reselection on an annual basis during the term of its compact. The Board emphasized the need for all partner countries to maintain or improve their policy performance. If it is determined that a country has demonstrated a significant policy reversal, MCC can hold it accountable by applying MCC's Suspension and Termination Policy (www.mcc.gov/pages/about/policy/policy-on-suspension-and-termination).

Regional partnerships

The Board also confirmed its support for MCC's efforts to explore new partnerships in South Asia that could contribute to regional economic benefits. This is because, under the right circumstances, such a regional approach may present opportunities to take advantage of higher rates of return on

investment and/or larger-scale reductions in poverty.
