

The Commission, when originally proposing changes to regulation 1.52, invited comments on its assessment that although the costs associated with obtaining the third-party expert would be reduced by the amendment, the paperwork burden impact of the amended scope of the report would be minimal. The Commission received no comments and has adopted the final rule. However, the Commission has determined that a slight revision of the expected burden hours associated with the information collection is possible due to the changes related to the third-party examinations expert report. Accordingly, the Commission is revising the total burden hours related to regulation 1.52 included in this collection.

The Commission previously estimated the entire burden hours for designated contract markets as SROs associated with regulation 1.52 as 50 hours per respondent. The revised scope of the third-party evaluation report should slightly reduce personnel hours needed to coordinate obtaining the report, although most of the burden hours included in this collection are associated with other aspects of the financial surveillance program requirements. Therefore, the Commission is revising the estimate of the burden hours associated with regulation 1.52 to be 49 hours per respondent. Additionally, the Commission notes that the number of registered, active DCMs has decreased from 15 to 14.

With respect to the collection of information, the CFTC invites comments on:

- Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have a practical use;
- The accuracy of the Commission's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Ways to enhance the quality, usefulness, and clarity of the information to be collected; and
- Ways to minimize the burden of collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology; e.g., permitting electronic submission of responses.

You should submit only information that you wish to make available publicly. If you wish the Commission to consider information that you believe is exempt from disclosure under the

Freedom of Information Act, a petition for confidential treatment of the exempt information may be submitted according to the procedures established in § 145.9 of the Commission's regulations.¹

The Commission reserves the right, but shall have no obligation, to review, pre-screen, filter, redact, refuse or remove any or all of your submission from <http://www.cftc.gov> that it may deem to be inappropriate for publication, such as obscene language. All submissions that have been redacted or removed that contain comments on the merits of the ICR will be retained in the public comment file and will be considered as required under the Administrative Procedure Act and other applicable laws, and may be accessible under the Freedom of Information Act.

Burden Statement: The Commission is revising its estimate of the burden for this collection.² The respondent burden for this collection is estimated to be as follows:

Respondents/Affected Entities: Designated Contract Markets and Self-regulatory Organizations.

Estimated Number of Respondents: 14.

Estimated Average Burden Hours per Respondent: 49.

Estimated Total Annual Burden Hours: 686.

Frequency of Collection: Various.

The amended regulations require no new startup or operations and maintenance costs.

(Authority: 44 U.S.C. 3501 *et seq.*)

Dated: March 29, 2019.

Robert Sidman,

Deputy Secretary of the Commission.
