Administration for Children and Families

[OMB #: 0970–0NEW]

Submission for Office of Management and Budget Review; Unaccompanied Alien Children Bureau Incident Reporting

AGENCY: Office of Refugee Resettlement, Administration for Children and Families, U.S. Department of Health and Human Services.

ACTION: Request for public comments.

SUMMARY: The Office of Refugee Resettlement (ORR), Administration for Children and Families (ACF), U.S. Department of Health and Human Services, is inviting public comments on the proposed information collection, including proposed changes. The request consists of several forms that will allow the Unaccompanied Alien Children Bureau (UAC Bureau) to ensure that serious issues are elevated to ORR and that all incidents and the response to such incidents are documented and resolved in a way that protects the interests of children.

DATES: *Comments due* June 26, 2025. The Office of Management and Budget (OMB) must decide about the collection of information between 30 and 60 days after publication of this document in the **Federal Register**. Therefore, a comment is best assured of having its full effect if OMB receives it within 30 days of publication.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function. You can also obtain copies of

the proposed collection of information by emailing infocollection@acf.hhs.gov. Identify all emailed requests by the title of the information collection.

SUPPLEMENTARY INFORMATION:

Description: ORR UAC Bureau is in the process of reorganizing its information collections to create more unique information collections that will contain fewer forms under each OMB control number. This will promote operational efficiency for UAC Bureau by decreasing the burden associated with renewing large collections and enabling UAC Bureau to create more purpose-specific information collections. In addition, this will facilitate OMB review by ensuring the scope of the collection is targeted and narrower than existing collections, resulting in clearer requests. As part of that reorganization effort, ORR plans to move the following forms that are currently approved under OMB #0970–0547 into this new information collection:

- Child-Level Event (Form A–9A)
- Emergency Significant Incident Report (eSIR) (Form A–9B)
- Non-Emergency Significant Incident Report (non-eSIR) (Form A–9C)
- Historical Disclosure (Form A–9D)
- Behavioral Note (Form A–9E)
- Program-Level Event (PLE) Report (Form A–10)

In addition, ORR plans to revise the forms as follows to better align the forms with related reporting requirements and processes found in ORR agency guidance (*i.e.*, regulations, policies, and procedures), as well as improve the forms’ organization, clarity, and functionality:

Child-Level Event (Form A–9A)

- Adjust the dropdown options for the “Location of Event” field to remove duplication and improve accuracy by:
 - Removing “Group Home” and “Foster Home”;
 - Rewording “Community (field trip or outside the foster home)” to “Community”;
 - Rewording “U.S. Interior, not DHS or ORR custody” to “U.S. Interior (before entering DHS or ORR custody)”;
 - Adjust the dropdown options for “Specify Location” for accuracy by:
 - Rewording options to clarify when they are referring to locations inside the care provider facility;
 - Adding an option for “Individual Foster Home”;
 - Adding the following options to select from if “Community” is selected in the “Location of Event” field:
 - Hospital or other healthcare facility;
 - School;

- Field Trip;
- Other.
- Add the following fields:
 - Level of Care;
 - Specify Out-of-Network Facility;
 - Specify Out-of-Network Level of

Care.

- Reword the Date/Time Event Reported to Care Provider fields as follows since provider staff may have directly witnessed the event, as opposed to having it reported to them by a third-party:
 - Date Care Provider Became Aware of Event;
 - Time Care Provider Became Aware of Event.

Emergency Significant Incident Report (Form A–9B)

- Reword the subcategory “Molestation (penetration or touching unrelated to official job duties of a child’s buttocks, breasts, or anal, oral, or genital area by a body part or object” to “Molestation (intentional penetration or touching unrelated to official job duties of a child’s genitalia, anus, groin, breast, inner thigh, buttocks, or mouth by a body part or object, including kissing, with intent to abuse, arouse, or gratify sexual desire)” for added clarity.
 - Remove the option of “UC and UC consensual” from the “Type of Allegation” dropdown field to align with the related regulation.

Non-Emergency Significant Incident Report (Form A–9C)

- Add “Gang affiliation reported” to the “External Threats to UAC” category.
- For the “Staff Code of Conduct & Boundary Violation” category:
 - Reworded the subcategory “Failing to report any knowledge, suspicion, or information about sexual abuse, sexual harassment, or inappropriate sexual behavior” to “Failing to report any knowledge, suspicion, or information about sexual abuse, sexual harassment, inappropriate sexual behavior, or any other form of abuse/neglect” to clarify that other forms of abuse/neglect are also reportable.
 - Added the following subcategories to better align with ORR agency guidance:
 - Failing to report a code of conduct violation;
 - Engaging in sexual contact with anyone while on duty or while acting in the official capacity of their position;
 - Threatening a child with incident reporting or behavioral notes to regulate their behavior or for any other reason;
 - Threatening a child with legal, immigration, sponsor unification, or asylum case consequences to regulate their behavior or for any other reason.

- Add a field for “Physical Location of the Child” in the “UAC Basic Information Section” [Child-Level Event, eSIR, non-eSIR, Historical Disclosure, and Behavioral Note].

- Add the following fields to track the status of each incident report [eSIR, non-eSIR, Historical Disclosure, Behavioral Note, and PLE Report]:

- Report Status;
- Date Report Opened;
- Date Report Closed.

- Add a field for “Did someone other than this child initially reported the incident?” with a corresponding table to list individuals that includes the following columns [eSIR, non-eSIR, Historical Disclosure, Behavioral Note, and PLE Report (phrased as “Who initially reported/observed the behavior?” for Behavioral Notes, and “Who initially reported the incident?” for PLE Reports)]:

- Name;
- Type;
- A#;
- Title;
- Specify.

- For the “How was this child involved?” and “Were other unaccompanied children involved” fields [eSIR and non-eSIR]:

- Use terms better aligned with child welfare best practices for incidents involving children by rewording “Victim” to “Impacted” and “Perpetrator” to “Exhibiting.”

- Allow users to select multiple options since a child may play multiple roles in an incident. This includes situations where the child is both exhibiting problematic behaviors and impacted due to past trauma or victimization.

- Add a “Disciplinary Action for Staff” column in the table that appears below the “Were staff present or involved in the incident?” field [eSIR and non-eSIR].

- In the Actions Taken section:

- Add the following fields to better track compliance with requirements in ORR agency guidance [eSIR, non-eSIR, and Historical Disclosure]:

- Was or will the child be referred to the local legal service provider for a follow-up legal consultation?

- Was or will the child be referred for appointment of a child advocate?

- Add the following fields to better track what healthcare services may be required because of the incident [eSIR, non-eSIR, Historical Disclosure, and Behavioral Note]:

- Was the child hospitalized and/or receive serious medical services? [eSIR only]

- Was or will the child be referred for healthcare services?

- Specify Type(s) of Healthcare Services (with options for Medical, Mental Health/Behavioral, and Dental).

- Describe the healthcare services that were or will be provided.

- Replace the “Follow-up Regarding Individuals Involved” field, which is duplicative of other fields in the section, with “Actions Taken for Witnesses” [eSIR and non-eSIR].

- Remove the “Recommendations” field where it appears and add an “ORR Recommendations” field to give ORR staff a place to document their recommendations within the form [eSIR, non-eSIR, Historical Disclosure, Behavioral Note, and PLE Report].

- Add a new “Immediate Phone Call Notifications” section to better track compliance with policy requirements [eSIR and PLE Report].

- In the Reporting section:

- Replace the yes/no radio button options for fields that ask if the incident was investigated with a dropdown field that includes the following options: “Yes,” “No,” “To Be Determined,”

- “Unknown” [eSIR, non-eSIR, Historical Disclosure, and PLE Report].

- Add a “Disposition of Investigation” field for reports made to state licensing, child protective services, and local law enforcement to better track outcomes when the incident is investigated by those parties [eSIR, non-eSIR, Historical Disclosure, and PLE Report].

- Add a new area to document reports to and the outcome of investigations conducted by the ORR Division of Child Protection Investigations [eSIR, non-eSIR, Historical Disclosure, and PLE Report].

- Add a new area to document when an Incident Review form (currently approved under OMB# 0970–0564) must be completed and a place to upload the completed form [eSIR and non-eSIR].

- Update the auto-populated information in the “ORR Notifications” table to align with policy and replace the “Email” and “Phone” columns with columns for “Method of Notification” and “Specify” (for when “Other” is selected) [eSIR and PLE Report].

- Remove the “ORR Notifications” table since notifications are made by ORR’s SIR Triage Team, not the care provider [non-eSIR and Historical Disclosure].

- Update the auto-populated information in the “Other Notifications” table to align with policy and add options for “Messaging app” and “Mail”

for the “Method of Notification” field [eSIR and non-eSIR].

Revisions to Burden Estimates

- *Child-Level Event (Form A–9A)*: Revise the burden estimate to account for an increase in the number of care provider facilities and to align with the actual number of forms submitted per year. The annual number of respondents increased from 216 to 300 and the annual number of responses per response increased from 160 to 262.

- *Emergency Significant Incident Report (eSIR) (Form A–9B)*: Revise the burden estimate to account for an increase in the number of care provider facilities and to align with the actual number of forms submitted per year. The annual number of respondents increased from 216 to 300 and the annual number of responses per response decreased from 26 to 10.

- *Non-Emergency Significant Incident Report (non-eSIR) (Form A–9C)*: Revise the burden estimate to account for an increase in the number of care provider facilities and to align with the actual number of forms submitted per year. The annual number of respondents increased from 216 to 300 and the annual number of responses per response decreased from 261 to 62.

- *Historical Disclosure (Form A–9D)*: Revise the burden estimate to account for an increase in the number of care provider facilities and to align with the actual number of forms submitted per year. The annual number of respondents increased from 216 to 300 and the annual number of responses per response decreased from 163 to 139.

- *Behavioral Note (Form A–9E)*: Revise the burden estimate to account for an increase in the number of care provider facilities and to align with the actual number of forms submitted per year. The annual number of respondents increased from 216 to 300 and the annual number of responses per response decreased from 137 to 90.

- *Program-Level Event (PLE) Report (Form A–10)*: Revise the burden estimate to account for an increase in the number of care provider facilities and to align with the actual number of forms submitted per year. The annual number of respondents increased from 216 to 300 and the annual number of responses per response decreased from 7 to 6.

Respondents: Care provider programs.
