

4. What objectives not included in the 2019 Strategic Plan should be strategic priorities for federally funded R&D in cybersecurity? Discuss the challenges, desired capabilities and outcomes, and objectives that should guide research to achieve the desired capabilities, and why those capabilities and outcomes should be strategic priorities for federally funded R&D.

5. What other scientific, technological, economic, legal, or societal changes and developments occurring now or in the foreseeable future have the potential to significantly disrupt our abilities to secure the digital ecosystem and make it resilient? Discuss what federally funded R&D could improve the understanding of such developments and improve the capabilities needed to mitigate against such disruptions.

6. What further advancements to cybersecurity education and workforce development, at all levels of education, should be considered to prepare students, faculty, and the workforce in the next decade for emerging cybersecurity challenges, such as the implications of artificial intelligence, quantum computing, and the Internet of Things on cybersecurity?

7. What other research and development strategies, plans, or activities, domestic or in other countries, should inform the U.S. Federal cybersecurity R&D strategic plan?

Following the receipt of comments, the NITRD Cyber Security and Information Assurance Interagency Working will consider the input provided when updating the Federal cybersecurity R&D strategic plan.

Submitted by the National Science Foundation in support of the Networking and Information Technology Research and Development (NITRD) National Coordination Office (NCO) on February 1, 2023.
