## NATIONAL SCIENCE FOUNDATION

### Proposal Review; Notice of Meetings

In accordance with the Federal Advisory Committee Act (Pub. L. 92-463, as amended), the National Science Foundation (NSF) announces its intent to hold proposal review meetings throughout the year. The purpose of these meetings is to provide advice and recommendations concerning proposals submitted to the NSF for financial support. The agenda for each of these meetings is to review and evaluate proposals as part of the selection process for awards. The review and evaluation may also include assessment of the progress of awarded proposals. These meetings will primarily take place at NSF's current headquarters, 4201 Wilson Blvd., Arlington, Virginia 22230 or NSF's new headquarters, 2415 Eisenhower Avenue, Alexandria, VA 22314.

These meetings will be closed to the public. The proposals being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are exempt under 5 U.S.C. 552b(c), (4) and (6) of the Government in the Sunshine Act. NSF will continue to review the agenda and merits of each meeting for overall compliance of the Federal Advisory Committee Act.

These closed proposal review meetings will not be announced on an individual basis in the **Federal Register**. NSF intends to publish a notice similar to this on a quarterly basis. For an advance listing of the closed proposal review meetings that include the names of the proposal review panel and the time, date, place, and any information on changes, corrections, or cancellations, please visit the NSF Web site: <https://www.nsf.gov/events/advisory.jsp>. This information may also be requested by telephoning, 703-292-8687.

Dated: August 1, 2017.

## NATIONAL SCIENCE FOUNDATION

### Final Environmental Impact Statement (FEIS) for the Arecibo Observatory, Arecibo, Puerto Rico

**AGENCY:** National Science Foundation.

**ACTION:** Notice of availability.

**SUMMARY:** The National Science Foundation (NSF) announces the availability of the Final Environmental Impact Statement (FEIS) for Arecibo Observatory. This Final EIS identifies and analyzes the potential consequences of the following alternatives: *Alternative 1*, Collaboration with Interested Parties for Continued Science-focused Operations (*Agency-preferred Alternative*); *Alternative 2*, Collaboration with Interested Parties for Transition to Education-focused Operations; *Alternative 3*, Mothballing of Facilities; *Alternative 4*, Partial Demolition and Site Restoration; and *Alternative 5*, Complete Demolition and Site Restoration; and the *No Action Alternative*, Continued NSF Investment for Science-focused Operations. It also proposes mitigation measures to minimize the adverse impacts from demolition or operation of the alternatives where such impacts may occur. Consultation under Section 106 of the National Historic Preservation Act (NHPA) is being conducted concurrent to the NEPA process.

**DATES:** The National Science Foundation will execute a Record of Decision no sooner than 30 days after the date of publication of the Notice of Availability published in the **Federal Register** by the Environmental Protection Agency.

**ADDRESSES:** The Final EIS is made available for public inspection on-line at [www.nsf.gov/AST](http://www.nsf.gov/AST). A Spanish translation of the Executive Summary of the Final EIS is posted.

A copy of the DEIS will be available for review at the following libraries in Puerto Rico:

Biblioteca Electrónica Pública  
Municipal Nicolás Nadal Barreto, 210  
Calle Santiago Iglesias, Arecibo, PR,  
Phone: (787) 878-1178  
Archivo General y Biblioteca Nacional  
de PR, 500 Avenida Juan Ponce De  
León, San Juan, PR, Phone: (787) 725-  
1060 ext. 2001

**FOR FURTHER INFORMATION CONTACT:** Ms. Elizabeth Pentecost, Re: Arecibo

Observatory, 4201 Wilson Blvd., Room 1045, Arlington, VA 22230; [envcomp-AST@nsf.gov](mailto:envcomp-AST@nsf.gov); 703-292-4907.

**SUPPLEMENTARY INFORMATION:** The Arecibo Observatory is an NSF-owned scientific research and education facility located in Puerto Rico. In 2011, NSF awarded a Cooperative Agreement to SRI International (SRI), which together with Universities Space Research Association (USRA) and Universidad Metropolitana (UMET) formed the Arecibo Management Team to operate and maintain the Arecibo Observatory for the benefit of research communities. The initial 5-year period of performance of the Cooperative Agreement was extended 18 months, to 31 March 2018. Arecibo Observatory enables research in three scientific disciplines: space and atmospheric sciences, radio astronomy, and solar system radar studies; the last of these is largely funded through a research award to USRA from the National Aeronautics and Space Administration. An education and public outreach program complements the Arecibo Observatory scientific program. A key component of the Arecibo Observatory research facility is a 305-meter diameter, fixed, spherical reflector. Arecibo Observatory infrastructure includes instrumentation for radio and radar astronomy and ionospheric physics, office and laboratory buildings, a heavily utilized visitor and education facility, and lodging facilities for visiting scientists.

Through a series of academic community-based and portfolio reviews, NSF identified the need to divest of several facilities from its portfolio in order to retain the balance of capabilities needed to deliver the best performance on the key science of the present decade and beyond. In 2016, NSF completed a feasibility study to inform and define options for the observatory's future disposition that would involve significantly decreasing or eliminating NSF funding of Arecibo. Concurrently, NSF sought viable concepts of operations from the scientific community via a Dear Colleague Letter NSF 16-005 (see [www.nsf.gov/AST](http://www.nsf.gov/AST)). NSF issued a Notice of Intent to prepare an EIS on May 23, 2016, held scoping meetings on June 7, 2016, and held a 30-day public comment period that closed on June 23, 2016. On September 30, 2016, NSF issued a Dear Colleague Letter NSF 16-144 (see [www.nsf.gov/AST](http://www.nsf.gov/AST)) to notify the Observatory stakeholder community that NSF intended to issue a follow-up solicitation, requesting the submission of formal proposals involving the continued operation of Arecibo
