SUPPLEMENTARY INFORMATION:

A. Purpose

This information collection is necessary to: (a) Determine the responsibility of prospective contractors; and (b) ensure that contractors maintain for accuracy and completeness, their integrity and performance information upon which responsibility determinations rely.

Section 872 of the Duncan Hunter National Defense Authorization Act of 2009 (Public Law 110-417), enacted on October 14, 2008, required the development and maintenance of an information system that contains specific information on the integrity and performance of covered Federal agency contractors and grantees. The Federal Awardee Performance and Integrity Information System (FAPIIS) was developed to address these requirements. FAPIIS provides users access to integrity and performance information from the FAPIIS reporting module in the Contractor Performance Assessment Reporting System (CPARS), as well as proceedings information and suspension/disbarment information from the Central Contractor Registration (CCR) and the Excluded Parties List System (EPLS) functions in the System for Award Management (SAM).

The provision at FAR 52.209-7 requires that for each solicitation where the resultant contract value is expected to exceed \$500,000, the offeror responds in paragraph (b) as to whether it has, or has not, active Federal contracts and grants that total greater than \$10,000,000. Only if the offeror responds affirmatively is there any further FAPIIS-related information collection requirement.

Because the total dollar amount of its current Federal contracts and grants can be quickly retrieved by any firm, the estimated number of hours for response to the check block in paragraph (b) of the provision at 52.209-7 is 0.1 hours.
