Endangered and Threatened Wildlife and Plants; 5-Year Reviews of 23 Southwestern Species

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of reviews.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), announce 5-year reviews of 23 southwestern species listed under the Endangered Species Act of 1973 (Act). The purpose of reviews conducted under this section of the Act is to ensure that the classification of species as threatened or endangered on the List of Endangered and Threatened Wildlife and Plants is accurate. The 5-year review is an assessment of the best scientific and commercial data available at the time of the review.

DATES: To allow adequate time to conduct this review, information submitted for our consideration must be received on or before May 12, 2009. However, we will continue to accept new information about any listed species at any time.

ADDRESSES: You should submit information on these species to the Service at the addresses listed under "Public Comments" in the **SUPPLEMENTARY INFORMATION** section. We will make information received in response to this notice of review available for public inspection by appointment, during normal business hours, at the same addresses.

FOR FURTHER INFORMATION CONTACT: Contact the appropriate office named in "Public Comments" for species-specific information.

SUPPLEMENTARY INFORMATION:

Why is a 5-year review conducted?

Section 4(c)(2)(A) of the Act (16 U.S.C. 1531 *et seq.*) requires that we conduct a review of listed species at least once every 5 years. We are then, under section 4(c)(2)(B) and the provisions of subsections (a) and (b), to determine, on the basis of such a review, whether or not any species should be removed (delisted) from the
