

The mislabeling does not cause any safety problems, such as increasing the probability of tire failure, and it is unlikely to result in unsafe use of the tires.

The agency also believes that the noncompliance of the subject tires with the ply labeling requirements of paragraph S5.5(f) of FMVSS No. 139 is inconsequential to motor vehicle safety because the noncompliance does not affect the operational safety of the vehicles on which these tires are mounted. Although tire construction affects the strength and durability, information relating tire strength and durability to the number of plies and types of ply cord material in the tread and sidewall is not readily available to tire dealers and consumers. Therefore, tire dealers and consumers should consider the tire construction information along with other information such as load capacity, maximum inflation pressure, and tread wear, temperature, and traction ratings, to assess performance capabilities of various tires. In the agency's judgment, the incorrect labeling of the tire construction information will have an inconsequential effect on motor vehicle safety because most consumers do not base tire purchases or vehicle operation parameters on the number of plies in a tire.

NHTSA has also considered the safety of personnel working in the tire retread, repair, and recycling industries in assessing whether the noncompliance of the subject tires with paragraph S5.5(f) FMVSS No. 139 is inconsequential to motor vehicle safety. The agency believes the noncompliance will have no measurable effect on the safety of tire retread, repair, and recycling industries. The use of steel cord construction in the sidewall and tread is the primary safety concern of these industries. In this case, since the tire sidewall is marked correctly for the number of steel plies, this potential safety concern does not exist.

NHTSA Decision: In consideration of the foregoing, NHTSA has decided that CTA has met its burden of persuasion that the FMVSS No. 139 noncompliance is inconsequential to motor vehicle safety. Accordingly, CTA's petition is hereby granted and CTA is exempted from the obligation of providing notification of, and a remedy for, that noncompliance under 49 U.S.C. 30118 and 30120.

NHTSA notes that the statutory provisions (49 U.S.C. 30118(d) and 30120(h)) that permit manufacturers to file petitions for a determination of inconsequentiality allow NHTSA to exempt manufacturers only from the

duties found in sections 30118 and 30120, respectively, to notify owners, purchasers, and dealers of a defect or noncompliance and to remedy the defect or noncompliance. Therefore, this decision only applies to the subject noncompliant tires that CTA no longer controlled at the time it determined that the noncompliance existed. However, the granting of this petition does not relieve equipment distributors and dealers of the prohibitions on the sale, offer for sale, or introduction or delivery for introduction into interstate commerce of the noncompliant tires under their control after CTA notified them that the subject noncompliance existed.

Authority: (49 U.S.C. 30118, 30120; delegations of authority at 49 CFR 1.95 and 501.8)

DEPARTMENT OF TRANSPORTATION

Surface Transportation Board

[Docket No. AB 290 (Sub-No. 377X)];
[Docket No. AB 1231X]

Norfolk Southern Railway Company— Discontinuance of Service Exemption—in Lucas County, Ohio; Midwest Rail, LLC d/b/a/Toledo, Lake Erie and Western Railway— Discontinuance of Service Exemption—in Lucas County, Ohio

Norfolk Southern Railway Company (NSR) and Midwest Rail, LLC d/b/a Toledo, Lake Erie and Western Railway (TLEW) (collectively, applicants) have jointly filed a verified notice of exemption under 49 CFR part 1152 subpart F—*Exempt Abandonments and Discontinuances of Service* for NSR to discontinue rail service, and for TLEW to discontinue lease operations, over approximately 1.80-miles of rail line owned by NSR between milepost TS 13.2 near Maumee, to milepost TS 15.0 at Waterville, in Lucas County, Ohio (the Line). Applicants state that TLEW originally obtained authority to operate the Line in 2012;¹ however, TLEW did not conduct any business on the Line and eventually defaulted on the lease. Thereafter, NSR cancelled the lease pursuant to the terms of the parties' contract, and NSR has been given power of attorney to file for discontinuance of TLEW's lease operations on TLEW's

behalf. The Line traverses United States Postal Service Zip Codes 43537 and 43566.

Applicants have certified that: (1) No local traffic has moved over the Line for at least two years; (2) no overhead traffic has moved over the Line for at least two years and overhead traffic, if any, could be rerouted over other lines; (3) no formal complaint filed by a user of rail service on the Line (or by a state or local government entity acting on behalf of such user) regarding cessation of service over the Line either is pending with the Surface Transportation Board or with any U.S. District Court or has been decided in favor of complainant within the two-year period; and (4) the requirements at 49 CFR 1105.12 (newspaper publication) and 49 CFR 1152.50(d)(1) (notice to governmental agencies) have been met.

As a condition to these exemptions, any employee adversely affected by the discontinuance of service shall be protected under *Oregon Short Line Railroad—Abandonment Portion Goshen Branch Between Firth & Ammon, in Bingham & Bonneville Counties, Idaho*, 360 I.C.C. 91 (1979). To address whether this condition adequately protects affected employees, a petition for partial revocation under 49 U.S.C. 10502(d) must be filed.

Provided no formal expression of intent to file an offer of financial assistance (OFA) to subsidize continued rail service has been received, these exemptions will be effective on July 1, 2015, unless stayed pending reconsideration. Petitions to stay that do not involve environmental issues and formal expressions of intent to file an OFA to subsidize continued rail service under 49 CFR 1152.27(c)(2)² must be filed by June 11, 2015.³ Petitions to reopen must be filed by June 22, 2015, with the Surface Transportation Board, 395 E Street SW., Washington, DC 20423-0001.

A copy of any petition filed with the Board should be sent to applicants' representative: William A. Mullins, Baker & Miller PLLC, 2401 Pennsylvania Ave. NW., Suite 300, Washington, DC 20037.

If the notice contains false or misleading information, these exemptions are void *ab initio*.

Board decisions and notices are available on our Web site at "www.stb.dot.gov."

² Each OFA must be accompanied by the filing fee, which is currently set at \$1,600. See 49 CFR 1002.2(f)(25).

³ Because applicants are seeking to discontinue service, not to abandon the Line, trail use/rail banking and public use conditions are not appropriate.

¹ *Midwest Rail, LLC d/b/a Toledo, Lake Erie & W. Ry.—Lease & Operation Exemption—Norfolk S. Ry.*, FD 35634 (STB served June 29, 2012).

Decided: May 27, 2015.

By the Board, Rachel D. Campbell,
Director, Office of Proceedings.

Brendetta S. Jones,
Clearance Clerk.
