

analysis will assess the direct, indirect, and cumulative impacts of the proposed Federal action on the human environment, comprehensively interpreted to include the natural and physical environment and the relationship of people with that environment. It will also analyze several alternatives to the proposed Federal action, to include no action and other reasonable courses of action (potentially including minimization and mitigation measures not considered in the proposed action). Relevant information provided in response to this notice will aid in developing the draft HCP and NEPA analysis.

Next Steps

In this phase of the project, we are seeking information to assist development of the NEPA analysis and the HCP, and to inform what level of environmental analysis would be necessary for project implementation. We will then develop a draft NEPA document based on the ITP application, draft HCP, any associated documents, and public comments received through this early scoping effort. The NEPA process will vary somewhat, depending on whether the project requires an EA or an EIS. We may solicit additional public, agency, and Tribal input to identify the nature and scope of the environmental issues that should be addressed during NEPA review, following appropriate public notice. We will then publish a notice of availability for the draft NEPA document and draft HCP and seek additional public comment before completing our final analysis to determine whether to issue an ITP.

Public Comments

The Service invites the public to provide comments that will assist our NEPA analysis during this 30-day public comment period (see **DATES**). You may submit comments by one of the methods shown under **ADDRESSES**.

Public Availability of Comments

We will post all public comments and information received electronically or via hardcopy on our Web site at: <http://regulations.gov>. All comments received, including names and addresses, will become part of the administrative record and will be available to the public. Before including your address, phone number, electronic mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—will be publicly available. If you submit a

hardcopy comment that includes personal identifying information, you may request at the top of your document that we withhold this information from public review. However, we cannot guarantee that we will be able to do so.

Authority

This notice is provided pursuant to NEPA regulations (40 CFR 1501.7 and 1508.22).

Dated: November 4, 2013.

New Dates for Close of Public Comment and Protest Periods Due to Federal Government Shutdown

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: The Bureau of Land Management (BLM) has established new dates for certain public comment and protest periods that were ongoing or that ended during the Federal Government shutdown resulting from a lapse in appropriations, which began on October 1, 2013, and ended on October 16, 2013.

DATES: The new dates can be found in the table under the **SUPPLEMENTARY INFORMATION** section.

FOR FURTHER INFORMATION CONTACT: Please refer to the contact information and commenting procedures listed in the original **Federal Register** notices. Web links to the original notices are provided in the following table.

SUPPLEMENTARY INFORMATION: Before the Federal Government shutdown, the BLM published notices in the **Federal Register** that informed the public they could obtain copies of various agency documents on BLM Web sites. The notices also contained closing dates for

public comment periods and the submission of protests. Three of the dates originally were set to close during the government shutdown and seven others originally were set to close after the shutdown ended.

The public was unable to access certain documents on the BLM Web site during the government shutdown. Accordingly, the BLM announced new dates through the issuance of a press

release for each of the comment periods and protest periods identified in this **Federal Register** notice. Comment periods and protest periods that were set to conclude during the shutdown have been adjusted by adding the number of days from the beginning of the shutdown to the original due date. These additional days were added to the date of the press release notifying the public of the new dates. Comment

periods and protest periods that were originally set to close after the shutdown were adjusted by adding 16 days, the number of the days of the shutdown. In some cases, the BLM is extending comment periods for an additional period of time. Any additional extensions were reflected in the new dates provided in the individual press releases.

Change in Discount Rate for Water Resources Planning

AGENCY: Bureau of Reclamation, Interior.

ACTION: Notice of change.

SUMMARY: The Water Resources Planning Act of 1965 and the Water Resources Development Act of 1974 require an annual determination of a discount rate for Federal water resources planning. The discount rate for Federal water resources planning for fiscal year 2014 is 3.50 percent.
