II. Background

Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC recently submitted a request for renewal of an existing collection of information to OMB for review entitled, NRC Form 748, “National Source Tracking Transaction Report.” The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The NRC published a **Federal Register** notice with a 60-day comment period on this information collection on April 6, 2022 (87 FR 19983).

1. *The title of the information collection:* NRC Form 748, “National Source Tracking Transaction Report.”
2. *OMB approval number:* 3150–0202.
3. *Type of submission:* Extension.
4. *The form number, if applicable:* NRC Form 748.

5. *How often the collection is required or requested:* On occasion (at completion of a transaction, and at inventory reconciliation).

6. *Who will be required or asked to respond:* Licensees that manufacture, receive, transfer, disassemble, or dispose of nationally tracked sources.

7. *The estimated number of annual responses:* 19,945 (14,000 online + 480 batch upload + 5,465 NRC Form 748).

8. *The estimated number of annual respondents:* 1,160 (210 NRC Licensees + 950 Agreement State Licensees).

9. *The estimated number of hours needed annually to comply with the information collection requirement or request:* 2,093.

10. *Abstract:* In 2006, the NRC amended its regulations to implement a National Source Tracking System (NSTS) for certain sealed sources. The amendments require licensees to report certain transactions involving nationally tracked sources to the NSTS. These transactions include manufacture, transfer, receipt, disassembly, or disposal of the nationally tracked source. This information collection is mandatory and is used to populate the NSTS. National source tracking is part of a comprehensive radioactive source control program for radioactive materials of greatest concern. The NRC and Agreement States uses the information provided by licensees in the NSTS to track the life cycle of the nationally tracked source from manufacture through shipment receipt, decay, and burial. NSTS enhances the ability of NRC and Agreement States to conduct inspections and investigations, communicate information to other government agencies, and verify legitimate ownership and use of nationally tracked sources.

Dated: August 5, 2022.

Information Officer.

SUPPLEMENTARY INFORMATION: Section 4262 of the Employee Retirement Income Security Act of 1974 (ERISA) requires PBGC to provide special financial assistance (SFA) to certain financially troubled multiemployer plans upon application for assistance. Part 4262 of PBGC's regulations, "Special Financial Assistance by PBGC," provides guidance to multiemployer pension plan sponsors on eligibility, determining the amount of SFA, content of an application for SFA, the process of applying, PBGC's review of applications, restrictions and conditions, and reporting and notice requirements.

To apply for SFA, a plan sponsor must file an application with PBGC and include information about the plan, plan documentation, and actuarial information, as specified in §§ 4262.6 through 4262.9. PBGC needs this information to review a plan's eligibility for SFA, priority group status (if applicable), and amount of requested SFA. PBGC estimates that over the next 3 years an annual average of 59 plan sponsors will file applications for SFA with an average annual hour burden of 590 hours and an average annual cost burden of \$1,770,000.

Under § 4262.10(g), a plan sponsor may, but is not required to, file a lock-in application as a plan's initial application. The lock-in application contains basic information about the plan and a statement of intent to lock-in base data. PBGC needs the information in the lock-in application to ensure that a plan sponsor intends to lock-in the plan's data. PBGC estimates that over the next 3 years an annual average of 23 plan sponsors will file applications for SFA with an average annual hour burden of 23 hours and an average annual cost burden of \$18,400.

Under § 4262.16(i), a plan sponsor of a plan that has received SFA must file an Annual Statement of Compliance with the restrictions and conditions under section 4262 of ERISA and part 4262 once every year through 2051. PBGC needs the information in the Annual Statement of Compliance to ensure that a plan is compliant with the imposed restrictions and conditions. PBGC estimates that over the next 3 years an annual average of 120 plan sponsors will file Annual Statements of Compliance with an average annual

hour burden of 240 hours and an average annual cost burden of \$288,000.

Under § 4262.15(c), a plan sponsor of a plan with benefits that were suspended under sections 305(e)(9) or 4245(a) of ERISA must issue notices of reinstatement to participants and beneficiaries whose benefits were suspended and are being reinstated. Participants and beneficiaries need the notice of reinstatement to better understand the calculation and timing of their reinstated benefits and, if applicable, make-up payments. PBGC estimates that over the next 3 years an average of 5 plans per year will be required to send notices to participants with suspended benefits. PBGC estimates that these notices will impose an average annual hour burden of 10 hours and average annual cost burden of \$10,000.

Finally, under § 4262.16(d), (f), and (h) a plan sponsor must file a request for a determination from PBGC for approval for an exception under certain circumstances for SFA conditions under § 4262.16 relating to reductions in contributions, transfers or mergers, and settlement of withdrawal liability. PBGC needs the information required for a request for determination to determine whether to approve an exception from the specified condition of receiving SFA. PBGC estimates that beginning in 2023, PBGC will receive an average of 2.2 requests per year for determinations. PBGC estimates an average annual hour burden of 7.6 hours and average annual cost burden of \$19,000.

The estimated aggregate average annual hour burden for the next 3 years for the information collection in part 4262 is 870.6 hours for employer and fund office administrative, clerical, and supervisory time. The estimated aggregate average annual cost burden for the next three years for the information collection request in part 4262 is \$2,105,400, for approximately 5,264 contract hours assuming an average hourly rate of \$400 for work done by outside actuaries and attorneys. The actual hour burden and cost burden per plan will vary depending on plan size and other factors.

The collection of information under the regulation has been approved by OMB under control number 1212-0074 (expires January 31, 2023). PBGC intends to request that OMB extend its approval for 3 years. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

PBGC is soliciting public comments to—

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodologies and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Assistant General Counsel for Regulatory Affairs, Pension Benefit Guaranty Corporation.
