

conserve or improve quality Gila chub habitat.

5. Work with stakeholders to improve and conserve existing and newly established Gila chub populations and their habitats and ensure that appropriate management plans and agreements are in place post-delisting.

6. Promote conservation of Gila chub in Mexico and on Tribal lands by forming partnerships and supporting research, outreach, and conservation management.

7. Monitor remnant, repatriated, and refuge populations to inform adaptive management strategies.

The draft recovery plan contains recovery criteria based on protecting all available remnant populations and replicating each MU in at least two streams. To achieve recovery criteria, threats of nonnative fish predation and competition, habitat alteration and fragmentation, and decreasing water availability should be controlled to manageable levels in streams occupied by Gila chub such that these threats do not pose imminent or chronic downward pressures on population sizes. When the status of Gila chub meets these criteria, the species will no longer meet the conditions of being endangered throughout a significant portion of its range and will no longer warrant listing.

Request for Public Comments

Section 4(f) of the Act requires us to provide public notice and an opportunity for public review and comment during recovery plan development. It is also our policy to request peer review of recovery plans (July 1, 1994; 59 FR 34270). We will summarize and respond to the issues raised by the public and peer reviewers and post our responses on our Web site. Substantive comments may or may not result in changes to the recovery plan; comments regarding recovery plan implementation will be forwarded as appropriate to Federal or other entities so that they can be taken into account during the course of implementing recovery actions. Responses to individual commenters will not be provided, but we will provide a summary of how we addressed substantive comments in an appendix to the approved recovery plan.

We invite written comments on the draft recovery plan. In particular, we are interested in additional information regarding the current threats to the species and the costs associated with implementing the recommended recovery actions. Suggestions of how to craft recovery criteria addressing threats

that are objective and measureable are welcome.

Before we approve our final recovery plan, we will consider all comments we receive by the date specified in **DATES**. Methods of submitting comments are in the **ADDRESSES** section.

Public Availability of Comments

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Comments and materials we receive will be available, by appointment, for public inspection during normal business hours at our office (see **ADDRESSES**).

South Bay Salt Pond Restoration Project, Phase 2; Don Edwards San Francisco Bay National Wildlife Refuge; Draft Environmental Impact Statement/Environmental Impact Report

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Reopening of the public comment period.

SUMMARY: We, the U.S. Fish and Wildlife Service (USFWS), in

coordination with the California State Coastal Conservancy, announce the reopening of the public comment period for the Draft Environmental Impact Statement/Environmental Impact Report (DEIS/EIR) for Phase 2 of the South Bay Salt Pond (SBSP) Restoration Project at the Don Edwards San Francisco Bay National Wildlife Refuge (Refuge) in Alameda, Santa Clara, and San Mateo Counties, California. The DEIS/EIR, which we prepared in accordance with the National Environmental Policy Act of 1969 (NEPA), describes and analyzes the alternatives identified for Phase 2 of the South Bay Salt Pond Restoration Project.

DATES: We will accept comments received or postmarked on or before October 30, 2015.

FOR FURTHER INFORMATION CONTACT: Anne Morkill, Project Leader, USFWS, 510-792-0222.

SUPPLEMENTARY INFORMATION: In coordination with the California State Coastal Conservancy, we publish this notice to announce the reopening of the comment period for the DEIS/EIR for Phase 2 of the SBSP Restoration Project at the Don Edwards San Francisco Bay Refuge which originally ran from July 22, 2015, to September 22, 2015 (80 FR 43456). The DEIS/EIR, which we prepared in accordance with the National Environmental Policy Act of 1969 (NEPA), describes and analyzes the alternatives identified for Phase 2 of the SBSP Restoration Project.

EPA's Role in the EIS Process

The EPA is charged under section 309 of the CAA (42 U.S.C. 7401 *et seq.*) to review all Federal agencies' environmental impact statements (EISs) and to comment on the adequacy and the acceptability of the environmental impacts of proposed actions in the EISs.

EPA also serves as the repository (EIS database) for EISs prepared by Federal agencies and provides notice of their availability in the **Federal Register**. The Environmental Impact Statement (EIS) Database provides information about EISs prepared by Federal agencies, as well as EPA's comments concerning the EISs. All EISs are filed with EPA, which publishes a notice of availability on Fridays in the **Federal Register**. You may search for EPA comments on the EIS, along with the EIS itself, at <https://cdxnodengn.epa.gov/cdx-enepa-public/action/eis/search>. The DEIS/

DEIR is also available at the locations under **ADDRESSES**.

NEPA Compliance

We are conducting environmental review in accordance with the requirements of NEPA, as amended (42 U.S.C. 4321 *et seq.*), its implementing regulations (40 CFR parts 1500-1508), other applicable regulations, and our procedures for compliance with those regulations. The DEIS/EIR discusses the direct, indirect, and cumulative impacts of the alternatives on biological resources, cultural resources, water quality, and other environmental resources. Measures to minimize adverse environmental effects are identified and discussed in the DEIS/EIR.

Public Comments

We request that you send comments only by one of the methods described in **ADDRESSES**. If you submit a comment that includes personal identifying information, you may request at the top of your document that we withhold this information from public review. However, we cannot guarantee that we will be able to do so.

Authority

We provide this notice in accordance with the requirements of NEPA (42 U.S.C. 4321 *et seq.*) and its implementing regulations (40 CFR 1506.6).

Alexandra Pitts,

Acting, Regional Director, Pacific Southwest Region.
