RIN 0648-XE527

Fisheries of the South Atlantic; Southeast Data, Assessment, and Review (SEDAR); Pre-Assessment Webinar for South Atlantic Red Snapper and Gray Triggerfish

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of SEDAR 41 Post-Review Workshop Webinar.

**SUMMARY:** The SEDAR 41 assessments of the South Atlantic stocks of *red snapper* and *gray triggerfish* will consist of a series of workshop and webinars: Data Workshops; an Assessment Workshop and Webinars; and a Review Workshop, see **SUPPLEMENTARY INFORMATION**.

**DATES:** The SEDAR 41 Post-Review Workshop Webinar will be held on Friday, April 8, 2016, from 1 p.m. to 3 p.m.

ADDRESSES: The Webinar is open to members of the public. Those interested in participating should contact Julia Byrd at SEDAR (see FOR FURTHER INFORMATION CONTACT below) to request an invitation providing Webinar access information. Please request Webinar invitations at least 24 hours in advance of each Webinar.

SEDAR address: South Atlantic Fishery Management Council, 4055 Faber Place Drive, Suite 201, N. Charleston, SC 29405. www.sedarweb.org.

FOR FURTHER INFORMATION CONTACT: Julia Byrd, SEDAR Coordinator, 4055 Faber Place Drive, Suite 201, North Charleston, SC 29405; phone (843) 571–4366; email: *julia.byrd@safmc.net*.

SUPPLEMENTARY INFORMATION:

# Agenda

The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions, have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a threestep process including: (1) Data Workshop; (2) Assessment Process utilizing webinars; and (3) Review Workshop. The product of the Data Workshop is a data report which compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The product of the Assessment Process is a stock assessment report which describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The assessment is independently peer reviewed at the Review Workshop. The product of the Review Workshop is a Summary documenting panel opinions regarding the strengths and weaknesses of the stock assessment and input data. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, Highly Migratory Species Management Division, and Southeast Fisheries Science Center. Participants include: Data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and nongovernmental organizations (NGOs); international experts; and staff of Councils, Commissions, and state and federal agencies.

The items of discussion for the Post-Review Workshop Webinar are as follows:

1. Participants will discuss any remaining assessment issues and recommendations from the Review Workshop in order to finalize the Review Workshop summary reports.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice

that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

#### **Special Accommodations**

This meeting is accessible to people with disabilities. Requests for auxiliary aids should be directed to the SAFMC office (see ADDRESSES) at least ten working days prior to the meeting.

**Note:** The times and sequence specified in this agenda are subject to change.

Authority: 16 U.S.C. 1801 et seq.

Dated: March 21, 2016.

#### Tracey L. Thompson,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service. [FR Doc. 2016–06755 Filed 3–24–16; 8:45 am]

## National Oceanic and Atmospheric Administration

## Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA). Title: Southeast Region Permit Family

of Forms.

OMB Control Number: 0648–0205. Form Number(s): None.

Type of Request: Regular (revision of a currently approved information collection).

Number of Respondents: 13,909.
Average Hours per Response: Vessel and dealer permit applications, 29 minutes each; wreckfish permit applications, live rock permit applications and operator card applications, 21 minutes each.

Burden Hours: 7,023.

Needs and Uses: This request is for a revision to the existing reporting requirements. The SERO Permits Office (Southeast Permits Office) administers Federal fishing permits in the Gulf of Mexico (Gulf), South Atlantic, and Caribbean Sea under the authority of the Magnuson-Stevens Fishery Conservation and Management Act, 16 U.S.C. 1801. The Southeast Permits Office proposes to revise two parts of the collection-of-information approved under OMB Control Number 0648–0205.
