

per fund. This time is spent, for example, preparing, reviewing, and certifying the reports, as well as the website availability requirements and delivery of shareholder reports upon request requirements. Accordingly, we calculate the total estimated annual internal burden of responding to rule 30e–1 to be approximately 1,738,428 hours (146.8 hours × 11,840 funds). In addition to the burden hours, we estimate that the total cost burden of compliance with the information collection requirements of rule 30e–1 is approximately \$13,105 per fund. This includes, for example, the cost of goods and services purchased to prepare, comply with website availability requirements, and deliver reports upon request under the amendments to rule 30e–1, such as for the services of independent auditors and outside counsel. Accordingly, we calculate the total external cost burden associated with rule 30e–1 to be approximately \$155,164,791.

Estimates of average burden hours are made solely for the purposes of the Paperwork Reduction Act and are not derived from a comprehensive or even representative survey or study of the costs of Commission rules and forms. The collection of information under rule 30e–1 is mandatory. The information provided under rule 30e–1 will not be kept confidential. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Written comments are invited on: (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's estimate of the burden of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted by July 24, 2023.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information under the PRA unless it displays a currently valid OMB control number.

SUPPLEMENTARY INFORMATION: The primary objective of the STEP Client Report form is to collect data on the quarterly progress of grantees of the SBA's State Trade and Export Promotion (STEP) program. These data will be used to understand how states have improved their trade and export activities and revenue. The STEP program has two primary objectives: (1) increase the number of small businesses that are exporting and (2) increase the value of exports for small businesses that are currently exporting. To achieve these objectives, SBA provides state-level grant recipients with funding for nine activities, including participation in foreign trade missions, design of marketing media, and trade show exhibitions.

Data from the STEP Client Report will provide SBA with critical information about the impact of various strategies used to advance trade and export activities in each state. These data will also provide an understanding of the specific ways in which funded activities meet SBA's goal of improving small business trade and export productivity. These data may inform strategies that can be replicated by other small businesses. These data are not currently being collected elsewhere and are critical to understanding the outcomes of STEP grantee activities.

Solicitation of Public Comments

SBA is requesting comments on (a) whether the collection of information is necessary for the agency to properly perform its functions; (b) whether the burden estimates are accurate; (c) whether there are ways to minimize the burden, including through the use of automated techniques or other forms of information technology; and (d) whether there are ways to enhance the quality, utility, and clarity of the information.
