NATIONAL SCIENCE FOUNDATION**45 CFR Part 670**

RIN 3145-AA48

Conservation of Antarctic Animals and Plants

AGENCY: National Science Foundation.

ACTION: Final rule.

SUMMARY: Pursuant to the Antarctic Conservation Act of 1978, The National Science Foundation (NSF) is amending its regulations to designate additional Antarctic Specially Managed Areas (ASMA) and one new Historical Site or Monument (HSM). Further, NSF is amending its regulations to reflect that the Antarctic Treaty Consultative Parties (Consultative Parties), at the Antarctic Treaty Consultative Meeting XXIX (ATCM XXIX) in Edinburgh, Scotland adopted Measure 4 (2006) which removed all species of the genus *Arctocephalus*, Fur Seals, from the list of Specially Protected Species in Appendix A to Annex II to the Protocol on Environmental Protection to the Antarctic Treaty (The Protocol). These additions only reflect measures already adopted by the Consultative Parties at Antarctic Treaty Consultative Meetings.

DATES: *Effective Date:* March 20, 2008.

FOR FURTHER INFORMATION CONTACT:

Bijan Gilanshah, Office of the General Counsel, at 703-292-8060, National Science Foundation, 4201 Wilson Boulevard, Room 1265, Arlington, Virginia 22230.

SUPPLEMENTARY INFORMATION: The Antarctic Conservation Act of 1978 (ACA), as amended, (16 U.S.C. 2401, *et seq.*) implements the Protocol on Environmental Protection to the Antarctic Treaty. Annex II of the Protocol contains provisions for conservation of native Antarctic plants and animals. Annex V contains provisions for the protection of specially designated areas. Section 2405 of title 16 of the ACA directs the Director of the National Science Foundation to issue such regulations as are necessary and appropriate to implement Annexes II and V to the Protocol.

The Antarctic Treaty Parties periodically adopt measures to establish additional specially protected areas, specially managed areas and historical sites or monuments in Antarctica. This rule is being revised to add two new Antarctic Specially Managed Areas and one new Historical Site and Monument. Finally, this revision reflects a decision by the Consultative Parties to de-list all species of the genus *Arctocephalus*, Fur Seals, from the list of Specially

Protected Species in Appendix A to Annex II to the Protocol. The Fur Seals will continue to receive comprehensive protection under the Environmental Protocol to the Antarctic Treaty.

No public comment is needed because the addition of these areas or sites and the delisting merely implements measures adopted by the Consultative Parties at ATCM XXIX.

Determinations

NSF has determined, under the criteria set forth in Executive Order 12866, that this rule is not a significant regulatory action requiring review by the Office of Management and Budget. This rule involves a foreign affairs function of the United States and is, therefore, exempt from the notice requirements of section 553 of the Administrative Procedures Act and from regulatory flexibility analysis requirements of the Regulatory Flexibility Act, 5 U.S.C. 601-612. Although this rule is exempt from the Regulatory Flexibility Act, it has nonetheless been determined that this rule will not have a significant impact on a substantial number of small businesses. For purposes of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), these amendments to the existing regulations do not change the collection of information requirements contained in NSF's existing regulations, which have already been approved by the Office of Management and Budget.
