40 CFR Part 52

[EPA-R03-OAR-2006-0728; FRL-8225-2]

Approval and Promulgation of Air Quality Implementation Plans; WV; Emission Reductions to Meet Phase II of the Nitrogen Oxides (NO_x); SIP Call

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA proposes to convert a conditional approval in the West Virginia State Implementation Plan (SIP) to a full approval. The SIP revision pertains to nitrogen oxides (NO_x) emission reductions required in West Virginia to meet Phase II of the NO_x SIP Call (Phase II). In order to meet the Phase II submission due date, the West Virginia Department of Environmental Protection (WVDEP) adopted its Phase II requirements under its emergency rule procedures. EPA granted conditional approval of the emergency rule contingent upon the WVDEP adopting a permanent rule with an effective date no later than the June 2, 2006 sunset date of its emergency rule and submitting the permanent rule as a formal SIP revision to EPA by July 1, 2006. West Virginia has met all the terms of the conditional approval by adopting its permanent rule with an effective date of May 1, 2006, and submitting the permanent rule to EPA before July 1, 2006. In the Final Rules section of this **Federal Register**, EPA is converting the conditional approval of the State's SIP revision to a full approval as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this action, no further activity is contemplated. If EPA

receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time.
