

DEPARTMENT OF AGRICULTURE**Submission for OMB Review;
Comment Request**

May 16, 2007.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Comments regarding (a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), OIRA_Submission@OMB.EOP.GOV or fax (202) 395-5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250-7602. Comments regarding these information collections are best assured of having their full effect if received within 30 days of this notification. Copies of the submission(s) may be obtained by calling (202) 720-8958.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Animal and Plant Health Inspection Service

Title: U.S. Origin Health Certificate.
OMB Control Number: 0579-0020.

Summary of Collection: As part of its mission to facilitate the export of U.S. animals and products, the U.S. Department of Agriculture, Animal and Plant Health Inspection Service (APHIS), Veterinary Services (VS), maintains information regarding the import health requirements of other countries for animals and animal

products exported from the United States. Most countries require a certification that the animals are disease free. The VS form 17-140, U.S. Origin Health Certificate, is used to meet these requirements. The form is authorized by 21 U.S.C. 112.

Need and Use of the Information: The U.S. Origin Health Certificate is used in connection with the exportation of animals to foreign countries and is completed and authorized by APHIS veterinarian. The information collected is used to: (1) Establish that the animals are moved in compliance with USDA regulations, (2) verify that the animals destined for export are listed on the health certificate by means of an official identification, (3) verify to the consignor and consignee that the animals are healthy, (4) prevent unhealthy animals from being exported and (5) satisfy the import requirements of receiving countries. The collection of this information helps to prevent unhealthy animals from being exported from the United States. If these certifications were not provided, other countries would not accept animals from the United States.

Description of Respondents: Farms; Business or other for-profit.

Number of Respondents: 3,067.

Frequency of Responses:

Recordkeeping; Reporting: On occasion.

Total Burden Hours: 30,024.

Animal and Plant Health Inspection Service

Title: Interstate Movement of Certain Tortoises.

OMB Control Number: 0579-0156.

Summary of Collection: The Animal and Plant Health Inspection Service (APHIS) regulates the importation and interstate movement of certain animals and animal products to prevent the introduction into or dissemination within the United States of pests and diseases of livestock. The regulations in 9 CFR part 93 prohibit the importation of the leopard tortoise, the African spurred tortoise, and the Bell's hingeback tortoise to prevent the introduction and spread of exotic ticks known to be vectors of heartwater disease, an acute, infectious disease of cattle and other ruminants. The regulations in 9 CFR part 74 prohibit the interstate movement of those tortoises that are already in the United States unless the tortoises are accompanied by a health certificate or certificate of veterinary inspection.

Need and Use of the Information: APHIS will collect information to ensure that the interstate movement of these tortoises poses no risk of spreading exotic ticks within the United

States. The collected information is used for the purposes of identifying each specific tortoise and documenting the State of its health so that the animals can be transported across State and national boundaries. If the information is not collected APHIS would be forced to continue their complete ban on the interstate movement of leopard, African spurred, and Bell's hingeback tortoises, a situation that could prove economically disastrous for a number of U.S. tortoises breeders..

Description of Respondents:

Individuals or households; State, Local or Tribal Government.

Number of Respondents: 150.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 249.

Ruth Brown,

Departmental Information Collection Clearance Officer.

DEPARTMENT OF AGRICULTURE**Forest Service****Navy Timber Sale Environmental Impact Statement**

AGENCY: Forest Service, USDA.

ACTION: Revised Notice of Intent to prepare an Environmental Impact Statement.

SUMMARY: This NOI revises information supplied in the NOI previously published in the **Federal Register** Vol. 71, No. 14 (pages 3454-3455) on January 23, 2006. The Department of Agriculture, Forest Service, will prepare an Environmental Impact Statement (EIS) on a proposal to harvest timber in the Navy Timber Sale project area on the Wrangell Ranger District, Tongass National Forest. The Proposed Action is to harvest 54 million board feet of sawtimber and 7.7 million board feet of utility from approximately 4,700 acres in one or more offerings and would construct approximately 17 miles of National Forest System road and 16 miles of temporary road to facilitate access for logging. The Proposed Action includes harvest units and road construction within Inventoried Roadless Areas, as identified in the Forest Plan SEIS. The Proposed Action includes the use of the existing Log Transfer Facility (LTF) at Anita Bay as well as the construction of a new LTF at the entrance to Burnett Inlet near Navy Creek. The Proposed Action includes a non-significant amendment to the Forest Plan to modify the
