

process will be fair and objective, and not subject to collusion. The information collected under this information collection allows the Commission to enforce the prohibition on auction applicants and other covered parties by making clear the responsibility of parties who receive information that potentially violates the rules to promptly report to the Commission. It also enables the Commission to ensure that no bidder gains an unfair advantage over other bidders in its auctions, thereby enhancing the competitiveness and fairness of Commission spectrum auctions. The information collected will be reviewed and, if warranted, referred to the Commission's Enforcement Bureau for possible investigation and administrative action. The Commission may also refer allegations of anticompetitive auction conduct to the Department of Justice for investigation.

SUPPLEMENTARY INFORMATION: This is a summary of the *Potential Safeguards in Connection with NORS-DIRS Information Sharing Public Notice*, PS Docket Nos. 15-80; DA 21-62, released January 19, 2022.

The complete text of the *Potential Safeguards in Connection with NORS-DIRS Information Sharing Public Notice* is also available electronically at: <https://www.fcc.gov/document/pshsb-seeks-comments-nors-dirs-information-sharing-safeguards>.

I. Background

On March 17, 2021, the Commission adopted a framework to allow sharing certain communications network outage information submitted to the FCC's NORS and DIRS systems with state, federal, and Tribal nation agencies to improve situational awareness, enhance their ability to respond more rapidly to outages, and to help save lives. Information submitted in NORS and DIRS "is sensitive for reasons concerning national security and commercial competitiveness, and the Commission this treats it as presumptively confidential."²

To protect the confidentiality and integrity of this sensitive information, the *Second Report and Order* adopted four specific safeguards: "(1) providing read-only access to the NORS and DIRS filings; (2) limiting the number of users with access to NORS and DIRS filings at participating agencies; (3) requiring special training for participating agencies regarding their privileges and obligations under the program; and (4) potentially terminating access to

agencies that misuse or improperly disclose NORS and DIRS data."³

II. Comment on the Cost, Utility and Feasibility of Specific Safeguards and Suggestions for Additional Safeguards

Acknowledging the utility of proposals raised by commenters earlier in this proceeding, the Commission directed the Bureau to "to seek, via Public Notice, further information on the cost, manner and technical feasibility" of including confidential notifications, headers, or watermarks on the read-only outage reports.⁴ The Bureau seeks specific comments on the usefulness and effectiveness of these specific safeguards as well as information on costs and feasibility of these proposals.

The Bureau was further directed to "implement in NORS and DIRS any measures and safeguards that it determines suitable and in the public interest based on the record developed in response to the Public Notice."⁵ Keeping in mind that proposed safeguards "should not impose new regulatory requirements on service providers or additional conditions on agencies seeking access to outage data," the Bureau invites comments proposing additional technical measures to preserve the confidentiality and integrity of the newly shared NORS and DIRS data.⁶

III. Implementation

Following the receipt of comments, the Bureau will release a Public Notice specifying any technical safeguards implemented in response to this Public Notice. To the extent necessary, these changes may be made without prior notice-and-comment under the Administrative Procedure Act as "rules of agency organization, procedure, or practice,"⁵ 5 U.S.C. 553(b)(A). The Bureau will then seek Office of Management and Budget (OMB) approval of the modifications to the extent required under the Paperwork Reduction Act. Upon receipt of OMB approval, and the Bureau's completion of all necessary changes to the systems, the Bureau will announce that the modifications are effective.

IV. Procedural Matters
