Title: FERC-523, Application for Authorization for the Issuance of Securities or the Assumption of Liabilities.

OMB Control No.: 1902-0043.

Type of Request: Three-year approval of the FERC-523 information collection requirements with no changes to the current reporting requirements.

Abstract: The information collected by FERC-523 is required to implement the statutory provisions of section 204 of the Federal Power Act (FPA) (16 U.S.C. 824c). Under section 204 of the FPA, no public utility or licensee shall issue any security, or assume any obligation or liability as guarantor, endorser, surety, or otherwise in respect of any security of another person, until the public utility applies for and receives Commission approval by order authorizing the issuance or assumption of the liability. The Commission issues an order if it finds that such issuance or assumption (a) is for lawful object, within the corporate purposes of the applicant and compatible with the public interest, which is necessary or appropriate for or consistent with the proper performance by the applicant as a public utility, and which will not impair its ability to perform that service, and (b) is reasonably necessary or appropriate for such purposes.

The Commission uses the information contained in filings to determine its acceptance and/or rejection of applications for authorization to either issue securities or to assume an obligation or liability by the public utilities and licensees who submit these applications.

The specific application requirements and filing format are found at 18 CFR part 34, and 18 CFR 131.43 and 131.50. This information is filed electronically. The 60-day **Federal Register** notice published on August 18, 2020 (85 FR 50823) with no comments were received.

Type of Respondents: Public utilities subject to the Federal Power Act.

Estimate of Annual Burden¹ and cost²: The Commission estimates the

reduction in the annual public reporting burden for the FERC-523, as follows:

FERC-523, APPLICATION FOR AUTHORIZATION FOR ISSUANCE OF SECURITIES OR THE ASSUMPTION OF LIABILITIES

Number of respondents	Annual number of responses per respondent	Total number of responses ³	Average burden hrs. & cost (\$ per response	Total annual burden hrs. & total annual cost (\$)	Cost per respondent (\$)
(1)	(2)	(1) * (2) = (3)	(4)	(3) * (4) = (5)	(5) ÷ (1)
57	1	57	70 hrs.; \$5,810	3,990 hrs.; \$331,170	\$5,810

Comments: Comments are invited on: (1) Whether the collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Pesticides; Draft Guidance for Pesticide Registrants on the List of Pests of Significant Public Health Importance

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability.

SUMMARY: The Environmental Protection Agency (EPA) is announcing the availability of and seeking public comment on a draft Pesticide Registration Notice (PR Notice) entitled, "Draft List of Pests of Significant Public Health Importance—Revised 2020." PR Notices are issued by the Office of Pesticide Programs (OPP) to inform pesticide registrants and other interested persons about important

policies, procedures, and registration related decisions, and serve to provide guidance to pesticide registrants and OPP personnel. This particular draft PR Notice provides guidance to the registrant concerning the proposal to update and replace the Pesticide Registration Notice (PRN) 2002-1, which identifies pests of significant public health importance. The United States Department of Health and Human Services (HHS), United States Department of Agriculture (USDA), and the Environmental Protection Agency (EPA) determined that updating the list to reflect the current public health situation was warranted because vector-borne diseases and related research has changed significantly since the original PR Notice was published almost 20 years ago. This update includes the addition or removal of pests, new impacts, renaming pests, or grouping pests of similar species.

DATES: Comments must be received on or before January 4, 2021.

ADDRESSES: Submit your comments, identified by docket identification (ID) number EPA-HQ-OPP-2020-0260, through <http://www.regulations.gov>. Follow the online instructions for submitting comments. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

Due to the public health concerns related to COVID-19, the EPA Docket Center (EPA/DC) and Reading Room is closed to visitors with limited exceptions.
