FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[DA 03-437; MB Docket No. 03-47, RM-10592]

Radio Broadcasting Services; Midlothian, Orange and South Hill, VA, and Reidsville, NC

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This document sets forth a proposal to amend the FM Table of Allotment of the Commission's rules. The Commission requests comment on a petition filed by Piedmont Communications, Inc. and Old Belt Broadcasting Corporation (together, "Joint Petitioners") pursuant to section 1.420(i) of the Commission's rules. Joint Petitioners propose to change the community of allotment and the corresponding channel allotment for Channel 255A at Orange, Virginia, to Channel 255B1 at Midlothian, Virginia, and to modify the license of WJMA-FM accordingly. In order to facilitate those changes, Joint Petitioners further propose to substitute Channel 270A for Channel 255C3 at South Hill, Virginia, and to modify the WSKS-FM license to specify operation on Channel 270A. To accommodate this proposal, Joint Petitioners also request substitution of Channel 271C0 for Channel 271C at Reidsville, North Carolina. Channel 255B1 can be allotted to Midlothian in compliance with the Commission's minimum distance separation requirements with a site restriction of 12.7 km (7.9 miles) northwest of Midlothian. The coordinates for Channel 255B1 at Midlothian are 37-35-23 North Latitude and 77-44-49 West Longitude. Channel 270A can be allotted to South Hill in compliance with the Commission's minimum distance separation requirements with a site restriction of 12.4 km (7.7 miles) northwest of South Hill. The coordinates for Channel 270A at South Hill are 36-46-48 North Latitude and 78-15-04 West Longitude. Channel 271C0 can be allotted at Reidsville, North Carolina, at the current coordinates for Channel 271C. Because Midlothian is not listed in the United

States Census 2000, Joint Petitioners must establish that Midlothian is a community for purposes of the Commission's FM allotment policies. The change of community from Orange to Midlothian would result in a net gain of 2,286.8 square kilometers and a net gain of 729,525 persons. In the loss area, adoption of the proposal would leave 2,470 persons in 135 square kilometers receiving two aural broadcast services, 10,720 persons in 77 square kilometers receiving three services, and 19,189 persons in 541 square kilometers receiving four services. In the gain area, the proposal would add a fifth reception service to 252 persons in 56 square kilometers. Substitution of Channel 270A for Channel 255C3 at South Hill would produce a net loss of 2,285.7 square kilometers and a net loss of 39,412 persons. The existing 70 dBu signal for WJMA-FM at Orange does not cover any Urbanized Area. Joint Petitioners state that Midlothian is not located in an Urbanized Area and that the proposed 70 dBu contour of WJMA-FM will cover less than 50 percent of the Richmond Urbanized Area. Under the circumstances described in the petition, no *Tuck* analysis will be necessary to evaluate this change of community proposal.
