

The Rule

This amendment to 14 CFR part 71 revises Class E airspace at the Toksook Bay Airport, Alaska. This Class E airspace is revised to accommodate aircraft executing amended instrument procedures, and will be depicted on aeronautical charts for pilot reference. The intended effect of this rule is to provide adequate controlled airspace for Instrument Flight Rules (IFR) operations at the Toksook Bay Airport, Toksook Bay, Alaska.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Because this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA’s authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle 1, section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency’s authority.

This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart 1, section 40103, Sovereignty and use of airspace. Under that section, the FAA is charged with prescribing regulations to ensure the safe and efficient use of the navigable airspace. This regulation is within the scope of that authority because it creates Class E airspace sufficient in size to contain aircraft executing instrument procedures for the Toksook Bay Airport and represents the FAA’s continuing effort to safely and efficiently use the navigable airspace.

RIN 0694–AE39

Chemical Weapons Convention Regulations: Additions to the List of States Parties; Updates to Contact Information for the Treaty Compliance Division; Editorial Corrections

AGENCY: Bureau of Industry and Security, Commerce.

ACTION: Final rule.

SUMMARY: The Bureau of Industry and Security (BIS) is publishing this final rule to amend the Chemical Weapons Convention Regulations (CWCRC) by updating the address for submitting

declarations, reports, and advance notifications under the CWCRC and for submitting chemical determination requests, and requests to obtain the forms needed to complete the declarations and reports. This final rule also updates the telephone and facsimile numbers for contacting, or providing information to, BIS’s Treaty Compliance Division (TCD), which administers the requirements contained in the CWCRC. In addition, this rule updates the e-mail addresses in the CWCRC for submitting chemical determination requests or requests for BIS to provide written interpretations of CWCRC requirements. These changes are being implemented by BIS to reflect the recent relocation of TCD.

This rule also updates the list of countries that currently are States Parties to the CWC by adding “Congo (Republic of the),” “Guinea-Bissau,” and “Lebanon,” which recently became States Parties.

Finally, this rule revises a number of references in the CWCRC to the Export Administration Regulations (EAR) to indicate the correct legal citation for the EAR.

DATES: This rule is effective December 22, 2008. Although there is no formal comment period, public comments on this regulation are welcome on a continuing basis.

ADDRESSES: You may submit comments, identified by RIN 0694–AE39, by any of the following methods:

- **Federal eRulemaking Portal:** <http://www.regulations.gov>. Follow the instructions for submitting comments.

- **E-mail:** publiccomments@bis.doc.gov. Include “RIN 0694–AE39” in the subject line of the message.

- **Fax:** (202) 482–3355. Please alert the Regulatory Policy Division, by calling (202) 482–2440, if you are faxing comments.

- **Mail or Hand Delivery/Courier:** Willard Fisher, U.S. Department of Commerce, Bureau of Industry and Security, Regulatory Policy Division, 14th St. & Pennsylvania Avenue, NW., Room 2705, Washington, DC 20230, ATTN: RIN 0694–AE39.

Send comments regarding this collection of information, including suggestions for reducing the burden, to Jasmeet Sehra, Office of Management and Budget (OMB), by e-mail to Jasmeet_K_Sehra@omb.eop.gov, or by fax to (202) 395–7285; and to the Regulatory Policy Division, Bureau of Industry and Security, Department of Commerce, 14th Street & Pennsylvania Avenue, NW., Room 2705, Washington, DC 20230. Comments on this collection

of information should be submitted separately from comments on the final rule (*i.e.*, RIN 0694-AE39)—all comments on the latter should be submitted by one of the three methods outlined above.

FOR FURTHER INFORMATION CONTACT: For questions of a general or regulatory nature, contact the Regulatory Policy Division, telephone: (202) 482-2440. For program information on declarations, reports, advance notifications, chemical determinations, recordkeeping, inspections and facility agreements, contact the Treaty Compliance Division, Office of Nonproliferation and Treaty Compliance, telephone: (202) 482-1001; for legal questions, contact Rochelle Woodard, Office of the Chief Counsel for Industry and Security, telephone: (202) 482-5301.

SUPPLEMENTARY INFORMATION:

Background

This final rule amends the Chemical Weapons Convention Regulations (CWCR) (15 CFR Parts 710-721) by updating the address for submitting declarations, reports, and advance notifications that are required under the CWCR and for submitting chemical determination requests, as well as requests for obtaining the forms needed to complete declarations and reports. This final rule also updates the telephone and facsimile numbers indicated in the CWCR for contacting, or providing information to, the Treaty Compliance Division (TCD), Office of Nonproliferation and Treaty Compliance, which is the organization within the Bureau of Industry and Security (BIS) that administers the requirements contained in the CWCR. In addition, this rule updates the e-mail addresses in the CWCR that may be used to submit chemical determination requests or requests for BIS to provide written interpretations of CWCR requirements by changing the domain for these addresses from "cwc.gov" to "bis.doc.gov." These changes are being implemented by BIS to reflect the recent relocation of TCD to new office space.

This rule also amends Supplement No. 1 to Part 710 of the CWCR (titled "States Parties to the Convention on the Prohibition of the Development, Production, Stockpiling, and Use of Chemical Weapons and on Their Destruction") by adding "Congo (Republic of the)," "Guinea-Bissau," and "Lebanon," which became States Parties to the CWC on January 2, 2008, June 18, 2008, and December 20, 2008, respectively. As a result of this change, the CWCR declaration and reporting

requirements for these two countries will be the same as those that apply to other States Parties.

Finally, this rule revises a number of references in the CWCR to the Export Administration Regulations (EAR) (15 CFR Parts 730-774) to indicate the correct legal citation for the EAR. Previously, the citation for the EAR read "(15 CFR Parts 730 through 799)." The EAR, as well as the International Traffic in Arms Regulations (ITAR), are referenced in the CWCR because both contain certain CWC-related requirements in addition to those described in the CWCR.

Rulemaking Requirements

1. This final rule has been determined to be not significant for purposes of Executive Order 12866.

2. Notwithstanding any other provision of law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with, a collection of information subject to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et. seq.*) (PRA), unless that collection of information displays a currently valid Office of Management and Budget (OMB) Control Number. This rule involves a collection of information subject to the requirements of the PRA. This collection has been approved by OMB under Control Number 0694-0091 (Chemical Weapons Convention—Declaration and Report Forms), which carries burden hour estimates of 10.6 hours for Schedule 1 Chemicals (including declarations, reports, and amendments), 11.9 hours for Schedule 2 chemicals (including declarations, reports, and amendments), 2.5 hours for Schedule 3 chemicals (including declarations, reports, and amendments), 5.3/5.1/5.1 hours for unscheduled discrete organic chemicals (depending upon whether an *Annual Declaration on Past Activities* or an *amendment thereto*, a *No Changes Authorization Form*, or a *Change in Inspection Status Form*, respectively, is required), 1.7 hours for compliance review requests, and 0.17 hours for Schedule 1 notifications. BIS anticipates that this rule will not change these burden hour estimates, nor will it change the total estimated burden hours for the approved collection (*i.e.*, 4,501.6 burden hours).

Comments are invited on: (i) Whether the collection of information is necessary for the functions of the agency, including whether the information shall have practical utility; (ii) the accuracy of the agency's estimate of the information collection burden; (iii) ways to enhance the quality, utility, and clarity of the information to be

collected; and (iv) ways to minimize the burden of the collection on respondents, including through the use of automated collection techniques or other forms of information technology.

Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing the burden to Jasmeet Seehra, Office of Management and Budget (OMB), and to the Regulatory Policy Division, Bureau of Industry and Security, Department of Commerce, as indicated in the **ADDRESSES** section of this rule.

3. This rule does not contain policies with Federalism implications as that term is defined in Executive Order 13132.

4. The provisions of the Administrative Procedure Act (5 U.S.C. 553) requiring notice of proposed rulemaking, the opportunity for public participation, and a delay in effective date are inapplicable for the amendments contained in this rule that involve updates to contact information for the Treaty Compliance Division. The provisions of the Administrative Procedure Act requiring notice of proposed rulemaking, the opportunity for public participation, and a delay in effective date are inapplicable for those changes because those revisions relate to rules of agency organization, procedure, or practice.

BIS finds that there is good cause under 5 U.S.C. 553(b)(B) to waive the provisions of the Administrative Procedure Act requiring prior notice and the opportunity for public comment for the corrections to references to the Export Administration Regulations (EAR) (15 CFR Parts 730-774), because prior notice and the opportunity for public comment are unnecessary. These revisions are administrative in nature and do not affect the rights and obligations of the public. Since these revisions do not constitute substantive changes to the CWCR, it is unnecessary to provide notice and opportunity for public comment. For the reason stated above, BIS finds good cause to waive the 30-day delay in effectiveness required by 5 U.S.C. 553(d) for the revisions to the references to the EAR.

The provisions of the Administrative Procedure Act (5 U.S.C. 553) requiring notice of proposed rulemaking, the opportunity for public participation, and a delay in effective date, do not apply to the amendments contained in this rule that involve the addition of three countries (*i.e.*, Republic of the Congo, Guinea-Bissau, and Lebanon) to the list of CWC States Parties in Supplement No. 1 to part 710 of the CWCR, because these revisions involve

a military and foreign affairs function of the United States (Sec. 5 U.S.C. 553(a)(1)).

Further, no other law requires that a notice of proposed rulemaking and an opportunity for public comment be given for this rule. Because a notice of proposed rulemaking and an opportunity for public comment are not required to be given for this rule under the Administrative Procedure Act or by any other law, the analytical requirements of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) are not applicable.

Therefore, this regulation is issued in final form. Although there is no formal comment period, public comments on this regulation are welcome on a continuing basis. You may submit comments, identified by RIN 0694-AE39, to Willard Fisher, Regulatory Policy Division, Bureau of Industry and Security, Department of Commerce, as indicated in the **ADDRESSES** section of this rule.

transmission providers must be in full compliance with the Standards by that date, with the exception of the posting and training requirements, with which transmission providers must be in full compliance no later than 60 days from the date of publication in the **Federal Register**, or December 26, 2008. On November 17, 2008, the Edison Electric Institute (EEI) and the Interstate Natural Gas Association of America (INGAA) jointly filed a motion for extension of certain compliance deadlines under Order No. 717. This order grants EEI's and INGAA's request to extend the time for compliance with 18 CFR 358.8(c)(1), 358.7(d), 358.7(h), and 358.8(b)(2) to January 30, 2009; and for a grace period until February 27, 2009 for training of new employees hired before January 30, 2009. In addition, this order provides notice of a change in personnel.

DATES: *Compliance Date:* The time for compliance with 18 CFR 358.8(c)(1), 358.7(d), 358.7(h), and 358.8(b)(2) is extended to January 30, 2009 and new employees hired before January 30, 2009 shall be trained by February 27, 2009.
