

has issued a comparability determination for 3 jurisdictions.¹¹ Accordingly, the Commission estimates that it will receive requests from the 13 remaining jurisdictions within the G20,¹² in addition to Switzerland. The number of burden hours associated with such requests is estimated to be 40 hours. Accordingly, the respondent burden for this collection is estimated to be as follows:

Estimated Number of Respondents:

14.
Estimated Average Burden Hours per Respondent: 40.

Estimated Total Annual Burden Hours: 560.

Frequency of Collection: Once.

There are no capital costs or operating and maintenance costs associated with this collection.

• *Burden Statement—Information Collection for Non-Netting Jurisdictions:*

The Commission is revising its estimate of the burden for this collection to reflect the current number of registrants subject to the Commission's margin requirements for uncleared swaps. Specifically, the Commission estimates that approximately 53 CSEs may rely on Commission Regulation 23.160(d).¹³ Furthermore, the Commission estimates that these CSEs would incur an average of 10 annual burden hours to maintain books and records properly documenting that all of the requirements of this exception are satisfied (including policies and procedures ensuring compliance). Accordingly, the respondent burden for this collection is estimated to be as follows:

Estimated Number of Respondents:

53.
Estimated Average Burden Hours per Respondent: 10.

Estimated Total Annual Burden Hours: 530.

¹¹ See Comparability Determination for Japan: Margin Requirements for Uncleared Swaps for Swap Dealers and Major Swap Participants, 81 FR 63376 (Sep. 15, 2016); Comparability Determination for the European Union: Margin Requirements for Uncleared Swaps for Swap Dealers and Major Swap Participants, 82 FR 48394 (Oct. 18, 2017); and Comparability Determination for Australia: Margin Requirements for Uncleared Swaps for Swap Dealers and Major Swap Participants, 84 FR 12908 (Apr. 3, 2019). The Commission subsequently amended its comparability determination for Japan. See Amendment to Comparability Determination for Japan: Margin Requirements for Uncleared Swaps for Swap Dealers and Major Swap Participants, 84 FR 12074 (Apr. 1, 2019).

¹² The Group of 20 ("G20") is comprised of foreign leaders and central bank managers from the top 19 countries with the largest economies along with the European Union.

¹³ See n.9, *supra*. Because all of these CSEs are eligible to use the special provision for non-netting jurisdictions, the Commission estimates that 53 CSEs may rely on Commission Regulation 23.160(d).

Frequency of Collection: Once; As needed.

There are no capital costs or operating and maintenance costs associated with this collection.

• *Burden Statement—Information Collection for Non-Segregation Jurisdictions:*

The Commission estimates that there are eight jurisdictions for which the first two conditions specified above for non-segregation jurisdictions are satisfied and where FCSs and foreign branches of U.S. CSEs that are subject to the Commission's margin rules may engage in swaps. The Commission estimates that approximately 12 FCSs or foreign branches of U.S. CSEs may rely on Commission Regulation 23.160(e) in some or all of these jurisdictions. The Commission estimates that each FCS or foreign branch of a U.S. CSE relying on this provision would incur an average of 20 annual burden hours to maintain books and records properly documenting that all of the requirements of this provision are satisfied (including policies and procedures for ensuring compliance) with respect to each jurisdiction as to which they rely on the special provision. Thus, based on the estimate of eight non-segregation jurisdictions, the Commission estimates that each of the approximately 12 FCSs and foreign branches of U.S. CSEs that may rely on this provision will incur an estimated 160 average burden hours per year (*i.e.*, 20 average burden hours per jurisdiction multiplied by 8). Accordingly, the respondent burden for this collection is estimated to be as follows:

Estimated Number of Respondents:
12.

Estimated Average Burden Hours per Respondent: 160.

Estimated Total Annual Burden Hours: 1,920.

Frequency of Collection: Once; As needed.

There are no capital costs or operating and maintenance costs associated with this collection.
