SUPPLEMENTARY INFORMATION:

Background

On February 12, 2020 HHS/CDC published an Interim Final Rule (IFR) in the **Federal Register** amending its Foreign Quarantine regulations at 42 CFR part 71 (85 FR 7874) to enable CDC to require airlines to collect, and, upon order of the Director of CDC, provide to CDC in a timelier manner, certain data regarding passengers and crew arriving from foreign countries for the purposes of health education, treatment, prophylaxis, or other appropriate public health interventions, including travel restrictions. This Interim Final Rule became effective on February 7, 2020, the day on which it went on display at the Office of the Federal Register. HHS/CDC undertook this rulemaking because a fundamental component of the public health response to the report of a person with a communicable disease is the identification and evaluation of those who may have been exposed. Thus, in order to control the introduction, transmission, and spread of communicable diseases into the United States, such as COVID-19, CDC must be able to identify and locate persons arriving in the United States from a foreign country who may have been exposed to a communicable disease abroad. Another fundamental component of a public health response is identifying and contacting those individuals who may have come in contact with a person with a communicable disease and who may be at risk of contracting the disease as a result of their interactions with such
