Affected entities: Entities potentially affected by this action are contractors performing work at sensitive sites or on sensitive projects, and not covered under the provisions of Homeland Security Presidential Directive -12. Specifically, all contractors involved with Emergency Response, Superfund, Information Systems, Facility Services, and Research Support that have significant security concerns, as determined by the Contracting Officer on a case-by-case basis, will be required to provide qualified personnel that meet the background check and drug testing requirements developed by EPA.

Titles: Background Checks for Contractor Employees (Renewal); Drug Testing for Contractor Employees (Renewal).

Abstract: Background checks cover citizenship or valid visa, criminal convictions, weapons offenses, felony convictions, parties prohibited from receiving federal contracts. Drug tests are for the presence of marijuana, cocaine, opiates, amphetamines and phencyclidine (PCP). The Contractor shall maintain records of all background checks and drug tests. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in 40 CFR are listed in 40 CFR part 9.

The EPA would like to solicit comments to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(ii) Evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) Enhance the quality, utility, and clarity of the information to be collected; and

(iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Burden Statement: The number of contractor employees expected to submit the requested information for background checks is 3,000 for the life of this ICR (3 years) or 1,000 occurrences per year. The number of annual occurrences, 1,000, multiplied by the respondent burden effort of 1 hour to collect information, equals a total of 1,000 hours per year. The total annual respondent cost for performing background checks collection requests is \$179,000. This is calculated by multiplying the number of annual occurrences, 1,000, by the respondent cost of one collection, \$179.

The number of contractor employees expected to submit the requested information for drug testing is 450 occurrences per year. The number of annual occurrences, 450, multiplied by the respondent burden effort of 1 hour to collect information, equals a total of 450 hours per year. The total annual respondent cost for this collection request is \$65,250. This is calculated by multiplying the number of occurrences, 450, by the cost of one collection, \$145.

Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.
