OSHA's Web page includes information about the NRTL Program (see <http://www.osha.gov/dts/otpcanrtl/index.html>).

SUPPLEMENTARY INFORMATION:

I. Notice of Final Decision

OSHA hereby gives notice of the expansion of the scope of recognition of Quality Auditing Institute, Ltd. (QAI) as an NRTL. QAI's expansion covers the addition of sixteen test standards to its scope of recognition. Additionally, OSHA announces a modification to its list of Appropriate NRTL Test Standards to include one additional test standard.

OSHA recognition of an NRTL signifies that the organization meets the requirements specified by 29 CFR 1910.7. Recognition is an acknowledgment that the organization can perform independent safety testing and certification of the specific products covered within its scope of recognition and is not a delegation or grant of government authority. As a result of recognition, employers may use products properly approved by the NRTL to meet OSHA standards that require testing and certification of the products.

The Agency processes applications by an NRTL for initial recognition, or for expansion or renewal of this recognition, following requirements in Appendix A to 29 CFR 1910.7. This appendix requires that the Agency publish two notices in the **Federal Register** in processing an application. In the first notice, OSHA announces the application and provides its preliminary finding and, in the second notice, the Agency provides its final decision on the application. These notices set forth the NRTL's scope of recognition or modifications of that scope. OSHA maintains an informational Web page for each NRTL that details its scope of recognition. These pages are available from the Agency's Web site at <http://www.osha.gov/dts/otpcanrtl/index.html>.

www.osha.gov/dts/otpcanrtl/index.html.

QAI submitted an application, dated November 18, 2014, (OSHA-2013-0017-0006) to expand its recognition to include sixteen additional test standards, including one test standard to be added to the List of Appropriate NRTL Test Standards. OSHA staff performed a comparability analysis and reviewed other pertinent information. OSHA did not perform any on-site reviews in relation to this application.

OSHA published the preliminary notice announcing QAI's expansion application and modification to the list of appropriate test standards in the **Federal Register** on December 7, 2015 (80 FR 76047). The Agency requested comments by December 22, 2015, but it received no comments in response to this notice. OSHA now is proceeding with this final notice to grant expansion of QAI's scope of recognition and modification to the list of Appropriate NRTL Test Standards.

To obtain or review copies of all public documents pertaining to the QAI's application, go to www.regulations.gov or contact the Docket Office, Occupational Safety and Health Administration, U.S. Department of Labor, 200 Constitution Avenue NW., Room N-2625, Washington, DC 20210. Docket No. OSHA-2013-0017 contains all materials in the record concerning QAI's recognition.

II. Final Decision and Order

OSHA staff examined QAI's expansion application, its capability to meet the requirements of the test standards, and other pertinent information. Based on its review of this evidence, OSHA finds that QAI meets the requirements of 29 CFR 1910.7 for expansion of its recognition, subject to the limitation and conditions listed below. OSHA, therefore, is proceeding with this final notice to grant QAI's scope of recognition. OSHA limits the expansion of QAI's recognition to testing and certification of products for demonstration of conformance to the test standards listed in Table 1 below.

TABLE 2—TEST STANDARD OSHA IS ADDING TO THE NRTL PROGRAM'S LIST OF APPROPRIATE TEST STANDARDS

Test standard	Test standard title
UL 962	Standard for Household and Commercial Furnishings.

OSHA's recognition of any NRTL for a particular test standard is limited to equipment or materials for which OSHA standards require third-party testing and certification before using them in the workplace. Consequently, if a test standard also covers any products for which OSHA does not require such testing and certification, an NRTL's scope of recognition does not include these products.

The American National Standards Institute (ANSI) may approve the test standards listed above as American National Standards. However, for convenience, we may use the designation of the standards-developing organization for the standard as opposed to the ANSI designation. Under the NRTL Program's policy (see OSHA Instruction CPL 1-0.3, Appendix C, paragraph XIV), any NRTL recognized for a particular test standard may use either the proprietary version of the test standard or the ANSI version of that standard. Contact ANSI to determine whether a test standard is currently ANSI-approved.

A. Conditions

In addition to those conditions already required by 29 CFR 1910.7, QAI must abide by the following conditions of the recognition:

1. QAI must inform OSHA as soon as possible, in writing, of any change of ownership, facilities, or key personnel, and of any major change in its operations as an NRTL, and provide details of the change(s);

2. QAI must meet all the terms of its recognition and comply with all OSHA policies pertaining to this recognition; and

3. QAI must continue to meet the requirements for recognition, including all previously published conditions on

QAI's scope of recognition, in all areas for which it has recognition.

Pursuant to the authority in 29 CFR 1910.7, OSHA hereby expands the scope of recognition of QAI, subject to the limitation and conditions specified above.

Authority and Signature

David Michaels, Ph.D., MPH, Assistant Secretary of Labor for Occupational Safety and Health, 200 Constitution Avenue NW., Washington, DC 20210, authorized the preparation of this notice. Accordingly, the Agency is issuing this notice pursuant to 29 U.S.C. 657(g)(2), Secretary of Labor's Order No. 1-2012 (77 FR 3912, Jan. 25, 2012), and 29 CFR 1910.7.

Signed at Washington, DC, on February 25, 2016.

David Michaels,

Assistant Secretary of Labor for Occupational Safety and Health.
