**SUPPLEMENTARY INFORMATION:**

### A. Background

The Government Accountability Office (GAO) Final Report, GAO–19–406, “CONTRACT FINANCING: DoD Should Comprehensively Assess How Its Policies Affect the Defense Industries,” dated June 27, 2019, recommended a comprehensive assessment of the effect that DoD’s contract financing and profit policies have on the defense industry. DoD concurred with this recommendation.

The Defense Contract Finance Study is being headed by the Defense Pricing and Contracting’s Director of Price, Cost and Finance. The study is comprised of two phases with multiple parts and participants. The first phase includes data collection, research, and analysis focused on areas of study that include the financial health of the Defense Industrial Base, commercial financing trends, the effectiveness of current methods of DoD contract financing, and other aspects of contract financing. The second phase will commence upon completion of the analysis of inputs from the first phase and may include policy recommendations. Through initiatives such as the Defense Contract Finance study, DoD remains committed to enabling the delivery and sustainment of capability to our Warfighters and maintaining a resilient Defense Industrial Base.

This notice requests comments and information from the public, specifically companies currently in the Defense Industrial Base, to assist DoD with this complex and significant study.

### B. Topics

DoD is particularly interested in comments and information with regard to contract finance policies as they affect all levels of the defense sector. Note that for the purpose of understanding financial health over time, the DoD Contract Finance Study is not covering impacts of the coronavirus disease 2019 (COVID–19) pandemic. Therefore, unless specifically asked, responses should exclude the period after the presidential declaration of a national emergency concerning the COVID 19 pandemic (March 13, 2020). DoD is seeking input from all business sizes, as identified below, on the following topics:

#### 1. Financial Health

a. What is your view of the financial health of the Defense Industrial Base? Has it improved over the last decade or two? Please provide your reasons and a description of any financial metrics that you think are relevant to answering these questions.
