RIN: 0648-XU25

**Caribbean Fishery Management Council; Public Meeting**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of a public meeting.

**SUMMARY:** The Caribbean Fishery Management Council's (CFMC) Scientific and Statistical Committee (SSC) will hold a meeting. The meeting is open to the public, and will be conducted in English.

**DATES:** The SSC meeting will be held on March 2–4, 2010. The SSC will convene on March 2, 3, and 4, 2010, from 9:30 a.m. until 5 p.m.

**ADDRESSES:** The meeting will be held at the Hilton Miami Downtown, 1601 Biscayne Boulevard, Miami, FL 33132

**FOR FURTHER INFORMATION CONTACT:** Caribbean Fishery Management Council, 268 Munoz Rivera Avenue, Suite 1108, San Juan, Puerto Rico 00918–1920, telephone: (787) 766–5926.

**SUPPLEMENTARY INFORMATION:** The SSC will meet to discuss the items contained in the following agenda:

**March 2, 2010**

- Call to order
- Adoption of Agenda
- Proposed Revision of Commercial Data Collection Process
  - Presentation by Steve Turner
  - Puerto Rico's Data Collection - DNER
  - USVI Data Collection - DPNR
  - Discussion
- Proposed Revision of Marine Recreational Data Collection Process (Now MRIP)
  - Proposed Revision of Highly Migratory Species (HMS) Data Collection Process

**March 3, 2010**

- Call to Order
- Proposed Fishery Independent Data Collection Project
  - Presentation by Todd Gedamke
  - Discussion
- Information on Density Ratio Control Rules Using Marine Reserves
  - Presentation by Alec McCall
  - Discussion
- Other Proposed Research/Monitoring Projects

**March 4, 2010**

- Call to Order

- Development of Projects to Recruit Talented Individuals into the Discipline of Stock Assessment in the U.S. Caribbean

- Presentation by Jim Berkson
- Discussion
- Prioritization of Proposed Research and Monitoring Projects
- Discussion
- Creation of Formal Report for CFMC
- Next Meeting

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the Council's intent to take final action to address the emergency.

**Special Accommodations**

This meeting is physically accessible to people with disabilities. For more information or request for sign language interpretation and/or other auxiliary aids, please contact Mr. Miguel A. Rolon, Executive Director, Caribbean Fishery Management Council, 268 Munoz Rivera Avenue, Suite 1108, San Juan, Puerto Rico 00918–1920, telephone: (787) 766–5926, at least 5 days prior to the meeting date.

Dated: February 3, 2010.

**William D. Chappell,**

*Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.*

**DEPARTMENT OF COMMERCE****International Trade Administration****Mission Statement**

**AGENCY:** Department of Commerce, ITA.

**ACTION:** Notice.

**Mission Statement**

Secretarial Indonesia Clean Energy Business Development Mission May 23–25, 2010.

**Mission Description**

U.S. Secretary of Commerce Gary Locke will lead a senior-level U.S. business development mission to Jakarta, Indonesia May 23–25, 2010 to discuss market development policies and promote U.S. exports in a broad range of clean energy technologies, including the geothermal, biomass,

hydropower, wind, solar, and energy efficiency sectors.

The mission will focus on helping U.S. companies already doing business in Indonesia to increase their current level of exports and business interests, as well as, U.S. companies that are experienced exporters enter Indonesia for the first time in support of creating green jobs in the United States. Participating firms will gain market information, make business and government contacts, solidify business strategies, and/or advance specific projects. In each of these important sectors, participating U.S. companies will meet with prescreened partners, agents, distributors, representatives, and licensees. The agenda will also include meetings with high-level national and local government officials, networking opportunities, country briefings, and seminars.

The delegation will be comprised of approximately 10–15 U.S. firms representing a cross-section of U.S. clean energy industries. The mission will also be open to representatives of U.S. trade associations in the targeted industries with commercial interest in Indonesia.

Representatives of the U.S. Trade and Development Agency (USTDA) and the Export-Import Bank of the United States (Ex-Im) will be invited to participate to provide information and counseling on their programs, as they relate to the Indonesian market.

**Commercial Setting**

Indonesia's 47 year legacy as the Organization of the Petroleum Exporting Countries' (OPEC) sole Asian member was eclipsed as the country became a net importer and exited OPEC. Today, liquid natural gas (LNG), thermal coal, and palm oil exports for bio fuel, dominate energy exports. Sound fiscal and monetary policies, strong domestic consumption, and diversified exports have contributed to the overall economic growth of Indonesia, making it one of the world's fastest growing economies in 2009. Energy needs have far exceeded supply causing the country to embark on multiple initiatives to regain energy balance, including a mandate of 15% renewables by 2025, that positions this mission perfectly for the U.S. to emphasize the importance of policy and competitive trade practices to shape the development of this high potential market.

In 2004, Indonesia's government announced a "Crash Program" to produce 20,000 MW of additional energy to support economic growth. Phase I of the program was confined to coal-fired electricity plants primarily
