

Background

The "State Nutrition and Physical Activity Programs to Prevent Obesity and Other Chronic Diseases" project was established by CDC to prevent and control obesity and other chronic diseases by supporting States in the development and implementation of nutrition and physical activity interventions, particularly through population-based strategies such as policy-level changes, environmental supports and the social marketing

process. The goal of the programs in this project is to attain population-based behavior change such as increased physical activity and better dietary habits; this leads to a reduction in the prevalence of obesity, and ultimately to a reduction in the prevalence of obesity-related chronic diseases.

The evaluation questions for "State Nutrition and Physical Activity Programs to Prevent Obesity and Other Chronic Diseases" have been designed to focus on three primary areas: (1) CDC training and technical assistance; (2)

State Plan development; and (3) State interventions. Within each of these primary evaluation areas, the plan identifies specific evaluation questions that have been chosen for study. The evaluation questions will be asked of the funded states via a web-based data collection system supported by an electronic database. This evaluation will take place every 6 months during the funding cycle. The proposed project will be conducted over a 3-year period. There is no cost to the respondents.

Rapid Expansion of the Capacity of the Cote d'Ivoire Ministry of Solidarity, Security, Social Affairs and Disabled Persons To Coordinate and Improve the Coverage and Quality of Care and Support Activities for Orphans, Vulnerable Children and Other HIV-Affected Persons and Families Under the President's Emergency Plan for AIDS Relief; Notice of Intent To Fund Single Eligibility Award

A. Purpose

The Centers for Disease Control and Prevention (CDC) announces the intent to fund fiscal year (FY) 2004 funds for a cooperative agreement program to help the Ministry of Solidarity, Security, Social Affairs, and Disabled Persons (MSSSH) of Cote d'Ivoire to rapidly expand their capacity to coordinate expanded quality HIV/AIDS prevention, care and support activities for particularly vulnerable segments of the population, such as orphans and other vulnerable children, and HIV-affected

persons and families. MSSSH will be better able to facilitate the vulnerable populations' access to information and quality support services. This program also directly addresses goals of the President's Emergency Plan for AIDS Relief to turn the tide of HIV/AIDS in Africa and the Caribbean. The Catalog of Federal Domestic Assistance number for this program is 93.941.

B. Eligible Applicant

Assistance will be provided only to The Ministry of Solidarity, Security, Social Affairs, and Disabled Persons (MSSSH) of Cote d'Ivoire. This Ministry is mandated by the government of Cote d'Ivoire to coordinate activities for the target groups named in this announcement (*i.e.*, orphans, vulnerable children, HIV-affected families, and social workers) and is, therefore, the most direct route to reaching these populations with information, services and training for HIV/AIDS prevention, care and support.

C. Funding

Approximately \$200,000 is available in FY 2004 to fund this award. It is expected that the award will begin on or before August 1, 2004, and will be made for a 12-month budget period within a project period of up to 5 years. Funding estimates may change.
