Number of Respondents: 34.

Total Annual Burden Hours: 8,916.

Needs and Uses: This request is for revision and extension of a currently approved information collection.

In 1972, in response to intense pressure on United States (U.S.) coastal resources, and because of the importance of U.S. coastal areas, the U.S. Congress passed the Coastal Zone Management Act of 1972 (CZMA), 16 U.S.C. 1451 *et seq.* The CZMA authorized a federal program to encourage coastal states and territories to develop comprehensive coastal management programs. The CZMA has been reauthorized on several occasions, most recently with the enactment of the Coastal Zone Protection Act of 1996

(CZMA as amended). The program is administered by the Secretary of Commerce, who in turn has delegated this responsibility to the National Oceanic and Atmospheric Administration's (NOAA) National Ocean Services (NOS).

The coastal zone management grants provide funds to states and territories to implement federally-approved coastal management programs; complete information for the Coastal Zone Management Program (CZMP) Performance Management System; develop multi-year program assessments and strategies to enhance their programs within priority areas under Section 309 of the CZMA; submit documentation as described in the CZMA Section 306A for specific construction, acquisition, and educational projects; submit requests to update their federally-approved programs through amendments or program changes; and develop and submit state coastal nonpoint pollution control programs (CNP) as required under Section 6217 of the Coastal Zone Act Reauthorization Amendments.

Revisions: The CZM performance report guidance will undergo minor updates that will ensure consistency with NOAA/NOS grants requirements as well as CZMA strategic priorities. The revised CZM performance measure guidance will provide clarification for reporting on competitive and multi-year awards, as well as additional guidance on financial reporting requirements. The revised Coastal Zone Management Act Program Change Procedures revisions provide a more efficient program change process for states.

The CZMA Section 306A guidance will also likely undergo minor updates to address several technical issues that arose from the 2018 guidance update as well as clarify several minor policy issues. However, NOAA does not anticipate any changes to the record keeping requirements or time estimates for collecting the necessary documentation.

Affected Public: State, Local, or Tribal government.

Frequency: On occasion, depending on the collection instrument.

Respondent's Obligation: Required to Obtain or Retain Benefits.

Legal Authority: Coastal Zone Management Act (16 U.S.C. 1451, *et seq.*).
