Other Information: Additional information about APHIS and its programs is available on the Internet at <http://www.aphis.usda.gov>.

FOR FURTHER INFORMATION CONTACT: For information on an information collection associated with regulations for the importation of unprocessed bird and poultry products from regions that have reported the presence of the H5N1 subtype of highly pathogenic avian influenza or for the importation of U.S. origin pet birds and performing or theatrical birds and poultry returning to the United States, contact Dr. Peter Merrill, Senior Staff Veterinarian, National Center for Import and Export, VS, APHIS, 4700 River Road Unit 41, Riverdale, MD 20737; (301) 734–0649. For copies of more detailed information on the information collection, contact Mrs. Celeste Sickles, APHIS' Information Collection Coordinator, at (301) 734–7477.

SUPPLEMENTARY INFORMATION:

Title: Highly Pathogenic Avian Influenza Subtype H5N1.

OMB Number: 0579–0245.

Type of Request: Extension of approval of an information collection.

Abstract: The Animal and Plant Health Inspection Service (APHIS) of the United States Department of Agriculture is authorized, among other things, to prohibit or restrict the importation of animals, animal products, and other articles into the United States to prevent the introduction of animal diseases and pests. The regulations in 9 CFR parts 93, 94, and 95 govern, among other things, the importation of certain birds, poultry,

and unprocessed bird and poultry products and byproducts to prevent the introduction of the H5N1 subtype of highly pathogenic avian influenza (HPAI H5N1).

HPAI H5N1 is an extremely infectious and fatal form of the disease for poultry. HPAI can strike poultry quickly without any warning signs of infection and, once established, can spread rapidly from flock to flock. HPAI viruses can also be spread by manure, equipment, vehicles, egg flats, crates, and people whose clothing or shoes have come in contact with the virus. HPAI viruses can remain viable at moderate temperatures for long periods in the environment and can survive indefinitely in frozen material. One gram of contaminated manure can contain enough virus to infect 1 million poultry. The H5N1 subtype of HPAI has been of particular concern because it has crossed the species barrier and caused severe disease, with high mortality, in humans.

APHIS' regulations prohibit or restrict the importation of unprocessed bird and poultry products and byproducts from regions that have reported the presence of the H5N1 subtype of HPAI, and contain permit and quarantine requirements for U.S. origin pet birds and performing or theatrical birds and poultry returning to the United States after being in such regions. The provisions necessitate the use of several information collection activities, including an Application to Import Controlled Materials or Transport Organisms and Vectors (VS Form 16–3), an Application for Import or In-Transit Permit (VS Form 17–129), a notarized declaration or affirmation, and a Pet Bird Owner Agreement (VS Form 17–8).

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the information collection, including the

validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the information collection on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies, *e.g.*, permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.5 hours per response.

Respondents: U.S. importers of unprocessed bird and poultry products from regions where HPAI subtype H5N1 has been reported, and owners of U.S. origin pet birds and U.S. origin performing or theatrical birds or poultry returning to the United States.

Estimated annual number of respondents : 5,180.

Estimated annual number of responses per respondent: 4.540540541.

Estimated annual number of responses: 23,520.

Estimated total annual burden on respondents: 11,760 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 21st day of May 2007.

Kevin Shea,

Acting Administrator, Animal and Plant Health Inspection Service.

SUPPLEMENTARY INFORMATION:

Background

On October 24, 2006, the Animal and Plant Health Inspection Service (APHIS) published in the **Federal Register** (71 FR 62240, Docket No. APHIS-2006-0152) a notice of its intention to prepare a supplemental environmental impact statement (SEIS) for the Importation of Solid Wood Packing Material Final

Environmental Impact Statement, August 2003 (FEIS). The purpose of the SEIS is to reevaluate and refine the estimates of methyl bromide usage associated with the alternatives considered in the FEIS. On March 9, 2007, the Environmental Protection Agency published in the **Federal Register** (72 FR 10749) a notice of the availability of the SEIS.

Comments on the SEIS were required to be received on or before April 23, 2007. We are reopening the comment period on the SEIS for an additional 30 days. This action will allow interested persons additional time to prepare and submit comments. We will also consider all comments received between April 24, 2007 (the day after the close of the original comment period) and the date of this notice.
